Election of officers will take place next week.

The Tabernacle Epworth League last evening was well attended. The topic for the evening, "The Call of Elisha," was discussed by Mr. (Rev.) Hill, and Mr. W. G. Hancock gave an earnest and practical address on "Soul Winning." Master W. Garrett contributed a vocal solo, after which the various committees presented their reports of the work of the month. Feeling reference was made to the loss sustained by the League in the death of one of the most faithful and beloved members, Miss Gertrude Foster.

## HALLOWEEN TRICKS.

A Small Fire Supposed to Have Been The Work of Mischievous Boys.

The boys were out in force last night and some damage in consequence is reported.

On Foster ave. a number of fences were torn down and several gates carried off.

A fence on Charles st. was fired about 12:30 a.m. by some miscreants. The flames were extinguished by a gentleman who resided near by.

The police received a telephone message from Miss Yates, Bridge st., that boys had been seen near the bridge on her residence. The Chief has the names of several of the boys and will prosecute.

At 10:15 an alarm of fire was sounded. It proved to be an old tumble-down vacant house on the corner of Harvey and Centre sts. in Coleman Ward, owned by Mr. Cummings. The fire was supposed to have been the work of boys. The damage was trifling.

A young man named J. Worrall, who was out masquerading, had a narrow escape from a serious accident. He had on false whiskers made of tar and by some means or other they became ignited. His comrades came to his assistance and he escaped with a few slight burns.

On the 29th, Lt.-Col. Pondon, of the XV, wrote to Lt.-Col. MacDonald, of the XVI, asking for a list of officers of that Battalion, who would attend a military school if established at Belleville. With true military promptitude and exactness, Col. MacDonald replied by return mail, giving a list of 12 officers, with the names of their companies, who would attend and also stated that he had two or three others to fill vacancies.

The first class marksmen certificates from the Canadian Military Rifle League, won by Capt. Vermilyea, Adj. McLean and Bandmaster Higgins have arrived. Capt. Vermilyea also receives a handsome gold badge.

The Militia Department has sent Col. Pondon several copies of the Cyclist Drill for 1897. This is the first time that this branch of the service has been officially recognized as part of the Battalions. During the recent manoeuvres at Halifax the militia were called upon to furnish several companies of cyclists, and this has probably opened the eyes of the authorities to their importance.

BOGART-DALY.

A Stylish Wedding Of Interest To Belleville People.

The following account of the Bogart-Daly wedding, which was announced exclusively in THE INTELLIGENCER last evening, appears in the Napanee Beaver:

A pretty autumn wedding took place at eleven o'clock yesterday at the residence of Mrs. Mortimer C. Bogart, Piety Hill, Dundas st., when her only daughter, Miss Carrie E. Daly, was united in marriage to Stewart L. Daly, of this town. Both of the contracting parties were well known and popular, and many friends took part in making their wedding day a happy one.

The bride was very quiet and unostentatious, and there being present only immediate relatives and friends, the ceremony was a simple one.

The bridegroom was dressed in a suit of dark blue, and the bride in a gown of white and pink, with a long train and a full skirt.

The ceremony was performed by Rev. Dr. Crothers, pastor of the Eastern Methodist church. Prof. Howard played the organ, and the wedding march was "The Bride and the Groom."

The bride and groom were then seated at a table, and the bride gave away the bride to her brother, Mr. Frank Bogart, and the bride's father, Mr. J. S. McKewen.

Oh yes, there is a third reason why the Senate should be wiped out of existence, and that is for what it might have done, had it had an opportunity of doing it, namely, supporting and passing the Remedial Bill, had it reached the Senate. There is little doubt but it would have passed the Senate on the ground that it was a very important and constitutional amendment. It is not expected that more than one or two straight Oppositionists will be returned.

**WEST YORK ELECTION.**  
Case Still Affords Politicians a Lesson in Political Deceit.

Toronto, Nov. 5.—Proceedings opened at 10 o'clock yesterday, with the reading of Mrs. Pearson's evidence, who was sworn in to attend court in person. George Angus, the stenographer who took the evidence, was called to read it. She was positively that the wood was bought on March 4, and corroborated the date by a number of trivial incidents. She did not say Arraitne for the dog until she had satisfied herself that she would like it.

Henry Harwood, who was on the street car when Pearson was alleged to have slipped a dollar into Arraitne's hand, said that Pearson was on the platform and Arraitne inside through the whole trip.

Walter J. Wright, who was charged with having been a part of a fund to be used for corrupt purposes on the election, said Mr. Pearson had induced him to become an active supporter in the Reform interests. Two days before the election Mr. Hill had informed him of a fund for the purpose of buying a dog, and he had promised to attend to the matter, and had done so at once by telephoning to Watson's wharf, and ordering them to send a half-cord of wood to Nelson immediately. He did not pay for it. Witness was recruited for his outlay in June. The purchase of street car tickets, groceries, and a few other incidents, made up the bulk of what he had done, and he had not intended the wood sent to Nelson as charity, but as a means of securing his vote.

After the noon recess Arraitne was recalled and answered to prove an alibi with regard to the statements of Mrs. Pearson about March 4. Arraitne swore he had been collecting evidence before that day.

Albert Head swore to meeting Arraitne opposite Dooch's Hotel the same day. Arraitne passed him the dollar he swore, and they talked together for a little while.

Mr. Brisford, in summing up, laid special emphasis on the fact that Arraitne had no reason for swearing falsely. Mr. Justice Falconbridge said Pearson's story was probable, but Arraitne's story about the dollar bill was improbable.

The court then settled itself to listen to several charges brought against Angus. The half-cord of wood delivered to Nelson was the bone of contention here. Mr. John Hall, who delivered the wood, was first called and swore that he delivered it to Mr. Nelson, and that he was not paid for it. Peter Nelson admitted having received the wood, but had not the slightest idea who sent it. He had never been canvassed for his vote.

The court rose at 5 o'clock until this morning at 10.

**North Toronto Election Case.**  
Toronto, Nov. 5.—Particulars in the North Toronto election case were held yesterday. The trial will be held on Nov. 12. The case is being tried by the Hon. Mr. G. F. Martineau, ex-Conservative leader, the respondent. The charges are that the respondent had been guilty of bribery and fraud in the election. The respondent is Mr. J. J. Martineau, who was not a regularly sworn agent of his party, and who was guilty of bribery and fraud in the election. The respondent is Mr. J. J. Possibilities of Great Benefit to Business Men and Workmen in the Province of Quebec.

Quebec, Nov. 5.—The date for the session has not yet been fixed by the House, but it is probable that the session will be called to meet some time about January 1st.

The Government's attention at the present time is engaged by the issuance of the bill for the election of a House of Representatives, and it seems as if they will be held in about a month or so.

About Pulp Wood.

The Government has been taking up the question of exporting pulp wood in the United States. It has been forced pretty much to the point of view of the House of Representatives, and the members of the Cabinet upon their colleagues, who do not seem over-anxious to discuss the matter, although it is a question that is of great importance to the pulp industry of the Province of Quebec.

## THE VERY PROTEUS OF ALL DISEASES.

It is Commonly Known as Grippe.

Paine's Celery Compound the Only Medicine that Can Cope With the Dread Visitor.

The old enemy grippe is now prevalent in many sections of the land, and, as in the past, it is the same old insidious foe, cruel and deadly.

The late eminent English physician, Sir Morrell Mackenzie, held that grippe was the result of "poisoned nerves." Sir Morrell compares it to an extraordinary disturbance in the telegraphic system produced by a thunder-storm, which is nothing compared with the freaks played by the living conductors in the human body when the governing centres are out of gear.

It is certain that the majority of medical men now agree about the theory of a "poisoned nerve," which explains the almost infinite variety of the attacks that mark the disease. The profound impression made on the nervous system by the poison, explains all the after effects of the malady, and more especially that curious loss of vital energy experienced by victims of grippe.

In past seasons, when grippe was epidemic, the ablest and most thoughtful doctors prescribed Paine's Celery Compound, a medicine that acts directly on the nerves of the body, cleansing them from all deadly poisons, toning and bracing up the entire system. In this way, fresh vitality is quickly bestowed and sound health restored.

The mysterious visitor grippe may pass many of its autumns and winters; we have, however, no guarantee that it shall be spared, so that it behooves all to be prepared for the arch enemy.

To those who are run down, weary, tired, sleepless, nervous, who have periodic headache and debility, we say, "Use Paine's Celery Compound to fortify the system for all emergencies." Physically strong men and women are not readily attacked by disease; the half-wild and weakly mortals are the first victims. At this time precaution and prevention are all important; the banishment of nervousness, sleeplessness, languidness, debility and headache should be first thoughts with old and young.

To safely guard against grippe and all other common diseases Paine's Celery Compound is the one effective medicine—the only sure preventive of danger.

Do not be misled by dealers who attempt, for the sake of large profits, to substitute something that will just as good; where health is concerned there is no other medicine that can take the place of Paine's Celery Compound and give satisfaction to those who are anxiously desiring a new life.

## ALDERMEN WERE WARM.

### Hot Dispute Over the Elevator Lease.

Will Probably Lie on the City's Hands  
—Mr. Carman vs. Mr. Lingham  
—Some Minor Matters.

At last night's meeting of the City Council there were present Mayor Johnson, Aldermen Chisholm, Hangerford, Denmark, Wallace, Grills, Pett, Lennox, La Roche, Clarke, Harris, Bogart, Starling, Finnegan, Pantier, Doyle, Lott and Falkner.

The price of resistance was the elevator lease which was brought up by a communication from Marsh and Henthorn stating that they had made an examination of the boiler and engine and suggested some repairs which were necessary but that it would require an expenditure on some repairs before they could make a thorough test.

When the Council went into committee of the whole, Ald. Falkner in the chair, Ald. Bogart referred to the fact that he had moved at a previous meeting to give Mr. Downey the elevator for \$420 a year, taxes and repairs. It had been agreed between the Executive and Mr. Downey that he should have a report made as to the condition of the boiler. It was now getting late in the season and Mr. Downey was not willing to take it unless he knew how much the repairs would cost.

Ald. Wallace said the motion had been to give Downey the elevator, he to make the repairs. He seemed now to be going back on his offer.

Mr. Marsh told how they were instructed by Downey to suspect the boiler and engine, expense not to exceed \$10, which had been done as far as possible. They could not properly inspect the engine without an expenditure of \$10 or \$15 on repairs.

Ald. Lott said all the boiler required was washing out and the engine worked satisfactorily as long as it was in use. The necessary repairs should not cost over \$25. He understood Downey was willing to go on until he heard a rumor that the boiler had been condemned. Such a rumor was without foundation.

Mayor Johnson asked if Mr. Downey had seen any civil official and refused to sign his lease.

He was informed that Mr. Downey was in the city and he sent a messenger to ask him to come and address the Council.

Subsequently His Worship informed the Council that Mr. Downey had been seen and had declined to wait upon them.

Ald. Hangerford said he understood that Mr. Downey would not abide by the agreement.

Ald. Bogart moved that the Mayor, Ald. Lott, Grills and Falkner be a special committee with the matter.

Ald. Falkner, who was in the chair, said the matter should be referred to a special committee, but to his (the Mayor's) committee. He declined to accept the motion.

Ald. Chisholm had talked with Mr. Downey yesterday afternoon and had not understood from him that he would not sign his lease.

Ald. Falkner still emphatically declined to accept the motion.

Ald. Denmark pointed out that Mr. Cole's offer of \$600 had been declined, and we were now willing to take \$420. Somebody had been successful in playing a trick on the Council.

He did not see why Mr. Marsh's report should be presented to the Council, Downey was to make the repairs. If he refused, he was to go ahead and play a trick on the Council.

Ald. Bogart asked that the City Solicitor should see what claim we had upon him. The matter should be left with the Market Committee.

Ald. Lott said the elevator was there, let Downey take it or leave it.

Ald. Doyle said our elevator should be a valuable asset. The ground rent brought a revenue to the city annually during the Downey lease up to January, 1896, of about nine hundred dollars, viz: Cash, \$300; taxes \$250; insurance \$350; total \$900. Now as the elevator building has become the city's property, and is set back for fourteen thousand dollars, one would expect more notwithstanding the reduction and expense.

His reports show, however, that the offer was much less, although competition seemed to raise it \$200 in one night. If there is any harking down this time, the city should put everything in a good state of repair and advertise properly for leasing or selling.

Ald. Falkner demanded a motion, there was nothing before the Council.

Ald. Wallace stated, said calls to order from the Chairman, that Mr. Downey had informed the Executive that he wanted the boiler inspected before he would sign the lease.

Ald. Bogart pointed out that he had supported the motion to give the elevator to Cole at \$600. When that was defeated, he had then moved that it be given to Downey at \$420. The latter gentleman was away at the time, but it was understood from Mr. Collins that he would accept it.

When Downey returned, he asked the city to pay one-half the cost of inspecting the boiler, to see what repairs were necessary. He had moved a special committee of practical men to see what was to be done.

Ald. Lott still could not see why the city should have anything to do with the inspection. Let Downey have it inspected himself.

Ald. Pantier said the remarks of Ald. Doyle would be right if they had proceeded in that way to leave the elevator. But two gentlemen had come and offered us such a year and repairs and we should have nothing to do with the inspection.

Ald. Hangerford reminded the Council that the Executive had agreed to have an inspection.

Ald. Falkner said the Market Committee had secured a good tenant, one of the most neat in the country, at \$600. This agreement was rejected and the matter turned over to the Finance Committee and this was the miserable result.

Ald. Doyle moved that if Downey now refuse to take the elevator the repairs should be made and then advertise for tenants.

Ald. Starling, who was interrupted by Ald. Falkner on rising, wanted to know if the Chairman had the right to do all the talking.

He considered Ald. Doyle's motion out of order. We should not pave the way for a back-down on Downey's part. We had been trying for a year to rent the elevator and the only thing we had done was to beautifully lower the rent.

Ald. Doyle said he would withdraw his motion.

Ald. Falkner—"You will not, sir."

Ald. Doyle appealed to the Council and asked leave to explain his withdrawal of the motion, but Ald. Falkner again ruled him out of order.

After a few minutes of confusion Ald. Falkner asked Ald. Doyle if he would tear his motion up, and the latter agreeing, it was done.

"This Committee rises and reports progress" said Ald. Falkner. And the Committee rose.

Under the head of motions, the rules were suggested to give aid. Wallace was to introduce a motion that if Downey did not immediately sign the lease, the elevator again be advertised. This seemed the shortest way to settle it.

Ald. Lott said that he understood that if Downey refused to take it Mr. Cole would buy it for spot cash.

Mayor Johnson reminded Ald. Doyle that now was a chance to again introduce his amendment.

Ald. Pantier said that the whole ground was covered by Ald. Wallace's motion.

Ald. Chisholm thought that a great mistake had been made in not trying to have the elevator rented earlier in the year. He should also try and have competition.

Ald. Pantier said every effort had been made to rent the elevator early in the year but without success.

The motion was carried.

MR. CARMAN'S GRIEVANCE.  
Ald. Carman, solicitor for Mr. T. S. Carman, addressed the Council as to a grievance which that gentleman has. Mr. F. R. Lingham, he claimed, had moved out of his house on John st., until it now took up over half the street and prevented access by vehicles to Mr. Carman's two houses on Turnbull st. Furthermore the sidewalk on the east side of the street had been removed. He understood the work had not been authorized by the city and he thought the Council should be jealous of any obstruction of the public highway.

It seemed peculiar that a private party should have the right to take up three quarters of the street for the purpose of beautifying his front yard.

After some discussion the matter was referred to the City Solicitor.

MR. PETRIE'S REQUEST.  
Mr. Allan Petrie addressed the Council asking for the usual rebate of taxes on his property in Dundas, which had been reduced in value by the Grand Trunk siding built within a few feet of the doors.

After the Mayor, Ald. Hangerford, Ald. Doyle and Ald. Falkner had acknowledged the justice of Mr. Petrie's claim, it was moved by His Worship and carried unanimously that the usual reduction of \$15 in his taxes be allowed.

ENQUIRIES.  
Ald. Bogart asked when the lamps would be placed on Burnham at Ald. Starling said the matter was under way.

Ald. Denmark asked whether the Electric Light Co. had the right to erect their wires to the city shade trees. Ald. Starling said it was a peculiar question for a lawyer to ask and layman to think about. He thought they had no such right.

OTHER MATTERS.  
The City Solicitor wrote that Miss Court threatened the city with a suit for damages unless a ditch in front of her residence was closed. On motion of Ald. Harris the Street Surveyor was instructed to attend to the matter.

The Mayor called the attention of the Public Works Committee to the condition of the lower bridge. It required painting and scraping.

Canadian Conference of Charities and Corrections wrote asking the Council to appoint a delegate to their annual convention. Referred to the Executive.

Re-Ald. Taylor complained of the condition of the sidewalk on Bettes st. after Ald. Wallace, Hangerford and Pett had spoken of the condition of the sidewalk.

Ald. Lott moved that it be attended to—Carried.

Ald. Pantier asked leave to hold over the introduction of his bill to repeal by law appointing the present Cow Inspector.

On motion of Ald. Bogart and Ald. La Roche the by-law to extend George st. was read a third time and passed.

Ald. Grills moved that all the city ditches and watercourses be cleaned at once.

Ald. Chisholm gave notice that at next meeting he would move for a report from the Collector of all unpaid taxes.

## TO TAKE THE PLACE OF COAL.

At the Toronto Exhibition this year, with most of the counties in Ontario abundant was manufactured into fuel and thousands of visitors saw it burning in the fire-box of the engine which manufactured it and ran the machinery attached to it. The discovery of this new mode of providing fuel is very good, and it is given equally as good a heat as anthracite coal.

It is to be manufactured and placed on the market by a Barrie Company, and will sell at first from \$3.50 to \$4. per ton, but it is thought by those in the business that as the out-put increases the new fuel may sell at \$2.50 per ton.

This being the case, and if the claim that manufactured fuel is equal to anthracite holds good, it will indeed be a boom not only to the people of Belleville but to the province, where coal sells at \$5.50 per ton, fifty cents higher than in Toronto.

The machinery that turned out the new fuel at Toronto gave the greatest satisfaction to those interested. Several firms that have tested it are pleased with the results.

There is no reason why this new product should not be prepared at, or near Belleville, as these so called beds exist on the shores of the Bay of Quinte and the manufactured article could readily find sale in our present factories and in those, which no doubt will be here shortly, — namely the proposed rolling mills and carpet factory.

Let us manufacture coal.

WORK HAS BEEN RESUMED.

On Pier 2 of the Interprovincial Bridge at Keegan Point.

Ottawa, Nov. 8.—Work on pier No. 2 of the Interprovincial Bridge at Keegan Point has been resumed owing to the decision of the Chief Engineer of the Department of Railways and Canals regarding the placing of concrete in the bottom of the pier.

Mr. Schröder, Chief Engineer of the Department, said he did not stop the pier but the bridge company that they did not comply with the requirements of the department regarding the placing of concrete in the bottom of the pier.

Many persons cannot take plain cod-liver oil.

They cannot digest it.

It upsets the stomach.

Knowing these things, we have digested the oil in Scott's Emulsion of Cod-liver Oil with Hypophosphites; that is, we have broken it up into little globules, or droplets.

We use machinery to do the work of the digestive organs, and you obtain the good effects of the digested oil at once. That is why you can take Scott's Emulsion.

## To Banish the Demon Dyspepsia.

The Sufferer Must Use Paine's Celery Compound.

Heaven help all miserable sufferers from dyspepsia and indigestion who are not making use of Paine's Celery Compound. Their position must prove hard, and hazardous if they continue with medicine that in many cases is really aggravating suffering.

Today thousands of men and fair women are veritable slaves to the demon dyspepsia. They are firmly bound with the chains of a disease that tortures both body and mind. Their digestive organs are almost destroyed, and many are reduced to skeletons. Such people no live life; they merely exist.

The symptoms and troubles that precede and follow the course of dyspepsia are poor and variable appetite, nausea, gnawing pain at the upper end of the stomach, yellow skin, coated tongue, food breath, constipation, falling sleep, sleeplessness, headache, and other ailments.

Advertised pills, mineral water, pepsin and other medicines will never bring back digestive vigor and health. It is only by the use of Dr. J. C. Paine's Celery Compound that the digestive organs are toned and work like a perfectly regulated machine. Paine's Celery Compound is a powerful medicine that has been used for over thirty years.

When Officer Stenberg was taking the

go to which he was remanded until

Saturday, the prisoner, who had been

shedding tears, asked the officer to hold

his umbrella for a minute, while he

tutted his coat. When the officer

released him to take the umbrella, he

dashed off by Church st., closely pursued

by Stenberg. He went through the gang-

way near Alexander st. and down the

steps near Mr. D. M. Waters' residence,

where he was lost sight of. All the

officers on duty were ordered to hunt for

him, but they did not succeed. It is

probable he boarded a freight train and

now out to reach. Jardine is a bad man

and it is probable that he is responsible

for all the petty burglaries which have

taken place here recently.

## PONTON'S MANY WITNESSES

Crown Consents to Subpoena  
Those at a Distance.

Mr. Porter, The Bank Clerk's Lawyer,

Visits Toronto.

(Mail and Empire.)

Mr. E. Gus Porter, of Belleville, who

has gained much fame as the legal defender

of Wm. Ponton, the young bank clerk who

is charged with complicity in the famous

Napanee bank robbery of August, 1897,

was in the city yesterday. Mr. Porter will

have a full view of Ponton's defence at

the trial, which comes off at Napanee as

size during the week beginning November

12th. It is to be the day yesterday, Mr.

Porter for the purpose of requesting the Crown

authorities to subpoena certain defence

witnesses living at a distance, on the ground

that Ponton did not possess sufficient

means to bring them to Napanee. Porter

will have 15 witnesses in all, and of these

the Crown has consented to subpoena

eighteen who reside outside the Bay of

Quinte district. Among them are persons

living in Vancouver, B.C., St. Paul, Minn.,

and other points. Among the defence

keeper of the Dominion Bank during Pon-

ton's incumbency as teller, is in British

Columbia, and he is one of the witnesses

needed by the defence.

It is not the intention of Mr. Porter, who

will appear for the Crown, to ask for any

postponement of the case. He will have

twenty or more witnesses, and it is reckoned

that the case will be disposed of in four

or five days.

## HURLEY ON THE GRIDDLE.

### Big Fight for the Deseronto Postmastership.

Will the Government Dare to Interfere with the Rathbuns?  
(Special to the INTELLIGENCER.)

DESERONTO, Nov. 9.  
The presence in our busy town to-day of four gentlemen, has set the local gossip agog and given rise to conjecture and discussion. Was it only a coincidence that Mr. J. M. Hurley, M.P., Mr. W. B. Northrup, ex-M.P., Mr. W. M. Johnson, Inspector of Weights and Electric Light, and Mr. Hawkins, Inspector of Post Offices, were all here at one time or for what purpose?

It is an open secret that ever since the last Dominion election, more than that one of the henchmen of the "party of purity," have had longing eyes on the Postmastership; but Mr. Hurley's life has been made unenviable by the persistence with which he has been hounded about it, that he is as weary of the thing as the "party of purity" is of the thing.

It appears that the wink has been given by the Postmaster-General that if they could only find some good excuse for it Mr. J. M. Rathbun would be no longer postmaster, that if complaints of all kinds could be sent to the Postmaster-General, and that would give him a pretext for holding an investigation (more likely an inquisition), so well have the conspirators succeeded that it is stated that the Post Office Inspector, who is here, comes direct from Ottawa with a budget of complaints. Amongst others, "Mr. Rathbun does not attend to the office himself; he leaves the work to cheap and inefficient help." "The office is not a convenient place at the back of the big store." "The mails are carelessly distributed." "Letters go astray." "So."

There is something in the wind as Mr. W. F. S. Rathbun and the Post Office Inspector were much together to-day. Mr. Johnson was looking for an office for the Dominion Government and it is said has got the only empty store in the place. Is that for the Post Office? If not for that, what for? Mr. Hurley looks worried, has got that "uneasy" look—the head that wears the crown—appearance. He walks as though he would sell out cheap. He left town without even a "heeler" surrounding him.

Will the Government dare to interfere with the Rathbuns?

## SYNOPSIS OF THE BY-LAW.

The Property holders, and Lessees of property, whose leases cover the period for which the debentures are to be issued, will be called upon on the 22nd day of November inst., to approve or disapprove of a By-Law passed by the City Council, granting a Bonus, subject if approved by the electors of the city, to legalization by the Ontario Legislature, to a local company formed in Belleville for the purpose of establishing a Brussels Carpet industry, within the limits of the city.

This is an important matter, as is every question affecting the taxation of the people, and should therefore be fully understood before a vote is cast, in order that each elector may understand the full text of the proposition, and what they are asked to give in aid of the enterprise, and what they are to receive in return therefor.

A synopsis of the By-Law showing what is proposed to be given, and what is expected in return, will therefore be of interest. It is as follows:

1st.—That a Company shall be formed with a capital of \$200,000, \$50,000 of which must be paid up before any portion of the bonus is given, said company to be called "The Canadian Brussels Carpet Company, Limited."

2nd.—That the City to grant, if approved by the people, to be legalized by the Ontario Legislature, \$35,000 in aid of said industry, upon complying with certain conditions hereinafter mentioned.

3rd.—The Company to buy or erect within the limits of the City, substantial buildings and place therein machinery to the value of, at least, \$40,000, for the manufacture of Brussels and Wilton Carpets, Rugs, etc.

4th.—The Company to employ at least 100 hands, exclusive of the officers of the Company, during ten months of each year, for ten years. One-third of such employees to be men, and the wages to be paid not less than \$25,000 per annum.

5th.—Upon compliance with the above terms, the Company to receive \$35,000.

6th.—The Company to insure the buildings, machinery, etc., for the sum of \$25,000 for ten years, in favor of the City. If the buildings should be burned, the \$25,000 to be used in the re-erection of said buildings, etc., within six months of said fire. If rebuilding and replacing of machinery, etc., is commenced within said time specified in the agreement, then the \$25,000 becomes the property of the City. Provision is made for the enforcement of these terms.

7th.—A certificate signed by three of the leading citizens certifying that the buildings and plant are worth \$40,000, must be lodged with the officials of the City, before any portion of the bonus can be paid.

The Veterans' Medals.

At the Quarterly Meeting of the Toronto Association of the Veterans of '96, a letter was read from the Chairman, Board, London, Eng., in which it was stated that a decision had been arrived at to grant medals to all who had taken part in the Fenian raid of 1868, and that these medals might be expected in Canada at any time.

The Make of an Overcoat.

In selecting an overcoat you ever take the trouble to go carefully into the matter of trimmings and general finish? A good overcoat can be slightly easily from \$1 to \$2 in the linings and trimmings. There may be other stores besides the Oak Hall selling good overcoats at \$10 and far as clothes goes, but when it comes to the inside finish there is no comparison. Take a look and judge for yourself.

THROUGH THIS RECOMMENDATION  
A BED-RIDDEN RHEUMATIC  
FOUND RELIEF AND HEALTH IN  
KOOTENAY CURE.

SACKVILLE, N.S., Aug. 26, 1898.

Gentlemen,—For nearly a year I suffered severely with rheumatism and was in such condition that I could not leave my bed for months. I learned of your medicine, Kootenay Cure, from a friend who had successfully used it for rheumatism and I concluded to try it. Up to date I have taken five bottles, and as a consequence am up and attending to business. I feel like a new man and have no hesitancy in recommending this medicine, Ryckman's Kootenay Cure, to any one suffering from rheumatism.

I remain, most respectfully yours,

GEO. F. WALLACE,

Proprietor Brunswick House.

WHAT LORD SALISBURY SAID

At the Guild Hall Banquet on  
Wednesday Night.The Premier Was Expected to Make an  
Important Announcement Regarding  
Egypt. But only one unexpected  
Allusion to It.Question Challenged by Underman—The  
Crisis—Peace Conference and the  
American Foreign Policy—Cable News.London, Nov. 10.—The annual banquet  
of the Lord Mayor of London took place  
at the Guild Hall last evening. There  
were 800 guests present, including mem-  
bers of the diplomatic corps, Cabinet  
Ministers and other distinguished men  
and their wives.After the usual toasts, the navy  
and army were toasted, Admiral Sir  
William Kennedy and Gen. Lord Wolsey  
responding for their respective forces,  
which were described as being in a per-  
fect state of preparedness to meet any  
power disputing Great Britain's just  
claims.The brevity of the speeches showed  
that everyone realized there was general  
anxiety to hear the views of Salisbury,  
who on rising to respond to the toast of  
"Her Majesty's Ministers," was greeted  
with prolonged cheering.The Premier began by saying that  
a succession of events abroad had occasioned  
grave anxiety to the Ministry for the  
past year. After an allusion to the death  
of the Empress of Austria and Great  
Britain's acceptance of the Cretan  
question, the Premier turned to the crisis  
which France, the Premier remarked:  
"We have had quite recently to consider  
whether the question of a European war  
was not very near. But, with great in-  
sight and consideration, the crisis has  
turned out happily, through the great  
judgment and common-sense displayed  
by France, under circumstances of un-  
usual difficulty, which, I think, have  
relieved Europe of a very dangerous and  
threatening crisis."After referring to the various rumors  
of intended action arising out of those  
preparations, including the seizure of  
Syria and Crete, and the declaration of  
a protectorate over Egypt—the latter allu-  
sion being greeted with immense cheer-  
ing—Lord Salisbury continued:"It is an irony to say I cannot rise to the  
height of the speech indicated by the  
cheering of the audience. I do not ven-  
ture to prophesy. If we are forced by  
events into a position which we do not  
occupy, what may occur, but we are well  
satisfied with the existing state of things,  
and we do not think any cause has arisen  
to necessitate action on our part at pre-  
sent to modify it."The position causes occasional fric-  
tion; but, taking into consideration the  
whole, and considering the feelings of  
other people as well as our own, we can  
reasonably rest for the present with the  
existing state of affairs. I must not be  
understood as meaning that Great Brit-  
ain's position in Egypt is the same now  
as it was before the fall of Omdurman;  
but we earnestly hope that circumstances  
will not make it necessary materially to  
modify that position, as we are convinced  
that it would not then get on so  
peaceably as now."Referring again to the war prepara-  
tions, and asking his hearers to look at  
the state of the world, Lord Salisbury  
observed:"The war has invited a congress to  
provide for the disarmament of  
Europe; but, while we offer our hearty  
wishes to its motives and are willing to  
thin flesh? Perhaps it's  
natural."If perfectly well, this is  
probably the case.But many are suffering  
from frequent colds, nervous  
debility, pallor, and a hun-  
dred aches and pains, simply  
because they are not fleshy  
enough.Scott's Emulsion of Cod-

and sympathetic in every way until the happy day when his aspirations are crowned with success, he must still pre-  
side precautions needful to counteract the dangers surrounding him. In some re-  
spects this is the great epoch in the his-  
tory of man—is marked by unhappy  
events. It is the first year in which the  
mighty force of the American Republic  
has been introduced among nations,  
whose dominions are extending, and  
whose instruments to a certain extent are  
war.

"I am not implying the slightest  
sympathy to the American Republic  
the difficulties through which it has  
passed, but no one can deny that its ap-  
pearance among nations is a matter of  
importance, and possibly in European diplo-  
macy, is a grave and serious event, which  
may not be the least of the interests of  
peace, though I think in any event it is  
likely to conduce to the interests of Great  
Britain. (Cheers.)

"But what has been impressed upon us  
is that the subject matter of war is ter-  
ribly prevalent on all sides. We see na-  
tions decaying whose government is so  
bad that they can neither maintain the  
power of self-defence nor relate the af-  
fection of its subjects; and when this  
occurs there are always neighbors im-  
pelled by some motive—it may be the  
highest philanthropy, or it may be the  
natural desire of empire—to assist as they  
shall be able to the falling nation; and  
that is the cause of war."

Lord Salisbury then alluded to the  
readily and unexpectedly with which  
war breaks out, and said:

"If Great Britain should ever permit  
its defence to weaken her whole  
empire would come clattering to the  
ground. (Cheers.)

It is, therefore, impossible, in the  
present state and temper of the world,  
to interrupt our naval and military prepa-  
rations."

He concluded by repudiating "all sug-  
gestion that our preparations mean that  
this country is animated by the lust of  
conquest or a love of war," declaring  
that Great Britain was only "resolved to  
maintain the Empire, which have re-  
ceived from their forefathers and to sup-  
port the peace which is the glory and  
maintenance of our Empire."

A great ovation from the entire as-  
sembly marked the conclusion of the Pre-  
mier's speech.

Calvo, Aug. 10, Nov. 10.—Major Mar-

French garrison, which will retire by  
way of Abyssinia to Jubbah, a six months'

Sagasta's Government Tottering.

London, Nov. 10.—The Paris corres-  
pondent of the Daily Telegraph says:  
The Spanish domestic situation in-  
spires alarm. Sagasta's Government  
is tottering. A minority, civil and  
military, disapproves of the government  
and the succession to parliamentary govern-  
ment. Meanwhile in Catalonia and two  
other provinces are loudly demanding  
separations. France views the situation  
with apprehension, and even with alarm.

Russia's Hand Shown.

London, Nov. 10.—The St. Petersburg  
correspondent of the Times says:  
The signs of Russian discomfiture  
with the Americans have been rendered  
conspicuous by the demand for annona-  
tion of this obligation. The Russian  
Ministry openly disavows the proposal, and  
suggests that Russia should join Germany  
in a refusal to acquiesce in American  
annexation."

has established communication with Em-  
peror Menelik of Abyssinia, and that  
France is now negotiating with that em-

STRIKE CONTINUES.

London Street Car Company and Its  
Employees Have Failed to Come  
to Terms.

London, Ont., Nov. 10.—Peaceful ne-  
gotiations between the London Railway  
Company and its striking employees are at  
an end. President Everett and Vice-  
President Moore of the city last night  
leaving the conduct of the fight on the  
part of the company in the hands of the  
local officials. The company's re-  
action throughout the whole difficulty  
they fully endorsed.

The three cars which were started out  
on Monday have not yet been supple-  
mented. The public is leaving them  
several hours, and those who are riding  
are using the union buses.

Last night one of the non-union men  
from Montreal who had been brought  
to London to break single-handed any  
half-dozen Western Canadians received  
a terrible beating at the hands of a union  
sympathizer. Private detectives are  
guarding Manager Carr's residence.  
Much apprehension is expressed in regard  
to acts of lawlessness before the strike is  
settled.

The Rate of Pay.

The company offered to pay 18 cents  
per hour for the first year, 14 cents per  
hour for the second year and 15 cents per  
hour for the third year. This would  
apply to their previous service, which  
would mean that those men who have  
been in the company's employ over two  
years of whom there are 47—would re-  
ceive 15 cents per hour. Many of these  
latter would have an increase within the  
next month or two by reason of their  
service. The scale of wages, the com-  
pany claim is higher than that paid in  
any city in Canada. London is paid 14  
cents per hour, or 10 cents per day for  
4 per cent. better than the men were  
receiving. The men were to have the  
option of hours, either a 9 or 10-hour  
day, or a 15-hour day with five days  
rest. The men at first stood out for  
10-12 cents, but later offered to accept  
for the first six months 15 cents per hour,  
second six months 14-3 cents per hour,  
third six months 15-3 cents per hour,  
and after 18 months 10-3 cents per hour.  
This the company would not concede,  
and there the matter ended.

## HOW THE ELECTIONS WERE CARRIED.

No less than five of Mr. Hardy's supporters have already been arrested for bribery and corruption. When and where is this kind of tactics to end? The records of the courts cast a blot upon the recollection of "the free and independent," which can only be wiped out by the passage of a penal act applying to all bribers, and by its rigid enforcement against all offenders.

Already five of the "come along, Johns, there's plenty of money to put down bribery and corruption," have been arrested. Here they are:

Mr. Aylesworth, in Lennor.  
Mr. Barber, in Halton.  
Mr. Garrow, in West Huron.  
Mr. Douglas, in East Northumberland.  
Mr. Loughlin, in Nipissing.

How many more are to follow, the courts will decide.

Is it any wonder that even the Godrich Signal calls for a change in election laws? The scandalous exhibitions in connection with the scores of protests entered after the contest of last March are the cause of the Signal's demand. It is very true that for a change, but it is doubtful if it will come till there is a change in the position of parties. The present bunched Ontario statutes are seemingly the best that Mowat and Hardy could devise.

In addition to this Hardyite mode of carrying an election, another equally exorbitant and potent element was introduced into the contest in Nipissing in the form of ninety-six flasks of whiskey and six bottles of the same convincing and elevating liquor.

Who will say that this Reform Government and these Reform followers do not require reforming?

In the Nipissing District there was a repetition of what has been the practice for years; that of the Colonization and Crown Land Agents interfering in both Dominion and Provincial elections. In the Nipissing trial the guilt of these parties has been established and they are to be reported by the Judges for corrupt practices.

Will these gentlemen be dismissed by the Government? Not a bit of it. Instead of punishment they will be rewarded, that has been the practice in the past, and no doubt will be continued.

## WHAT NONSENSE!

The public is not infrequently regaled by the Ministerial press with a plan to which deserves no other name than "arrant rot." The last and most ludicrous example that has come under our eye for some time past is the following:

"There is no doubt on earth that the Tory ringleaders of the Dominion Alliance are working in sympathy with a plan to hoodwink their fellow-sympathizers of the left party with the help of the Government ought to pass prohibitory legislation in the hope that sufficient dissatisfaction might be caused to bring about the Government's destruction."

What think our Liberal friends, who control the Dominion Alliance, of such utterances? Are they as glib as they are represented in the above extract, therefore require cautioning?

Who were the parties who waited upon the Premier, demanding the introduction and passage of a Prohibitory Liquor Law? And who were the spokesmen? Were they "Tory Ringleaders of the Dominion Alliance"? Let us see. The first gentleman, whose name heads the list of interviewers, is the Rev. Dr. Carman, Superintendent of the Methodist Church in Canada; the next is Mr. F. S. Spence, Secretary of the Alliance, who in plain language told the Premier what his duty was and what he should do, in view of the vote that was recorded by Major Bond, in Montreal. Dr. McLeod, of New Brunswick; Mr. McClure, M.P. for Colchester, Nova Scotia; Rev. Mr. Hogg, of Winnipeg; and last, but not least, Mr. Dan O'Donoghue, of Toronto. Not a single Tory among them! Nor are they men, from what is known of them, who would be likely to be "hoodwinked" by "Tory Ringleaders," or their fellow-sympathizers. Such statements are not only non-sensical in the extreme, but insulting to the gentlemen who are urging a compliance on the part of the Government with the will of the majority who voted for prohibition.

This "Tory Ringleaders" conspiracy to "hoodwink" the veritable Liberal prohibitionists, is not, however, half so serious or comically false as the declaration that "the scheme of the distillers was to allow the question to carry the country," in order to "put the Government in a tight place," by compelling the introduction of a prohibitory law, and then defeat them at the polls.

Who, in this age of progress and invention, could have supposed that so gigantic an intellect as that which gave vent to such statements, existed in our midst. No, no, the distillers are neither fools, nor are the "Tory Ringleaders," such idiots, as to play at knaves, or games of that character; trickery of that kind is fit only for the intellectual giant who conceived the idea.

Now it is in order to declare that those wicked "Tory Ringleaders" and "Distillers," have extended their influence far beyond the confines of the Dominion Alliance, for the Woman's Christian Temperance Union have, if Grit reasoning be correct, entered the list of "Hoodwinkers" in a plan of provinces and constituencies and voters, we call upon the Dominion Government to redress its pledges and give us the total prohibition of the liquor traffic. It is our responsibility while conceding the French countries the right to think and act for themselves, as Anglo-Saxons we will energetically resist any attempt to sell the social and moral government of Canada through the liquor traffic, which contains more illiterates and less broad scholarly culture on the great ethical problems than any other.

What will those earnest workers in the cause of prohibition think, if told that they in passing the above resolution were playing the game of "Tory Ringleaders" and "Distillers"?

Baldershead could not be carried further.

The Utterance is Making a Stir Throughout Europe.

London, Nov. 11.—Lord Salisbury's speech at the Lord Mayor's banquet at the Guild Hall—especially his reference to America—is making a stir throughout Europe. The Paris evening papers yesterday having long satisfied them that the utterances of the morning press in the French capital, with the whole continent reflects the feeling that the speech conveys a grave message for the future.

In a Liberte of Paris says: "It is a question of an Anglo-American agreement respecting the Philippines against Germany."

The Journal des Debats regards the speech as "an invitation to America to make an alliance against Europe, but doubts whether Americans will willingly play the role of train-bearers to English politics."

The London morning papers revert to the subject and again call for attention to wish well to America's colonial mission. The Times says editorially:

"No doubt the idea of La Liberte is grotesque yet it shows a true appreciation of the spirit of Lord Salisbury's remarks that the singular interpretation put upon them by our correspondent, Mr. Henry Norman, who finds in them the proposition implicit that the English attitude during the war was due to the notion that our interests would be furthered by the United States being plunged into the war. Lord Salisbury clearly did not refer to the late war at all. He said the United States the compliance of holding their entry into Old World politics is an event of great importance. His further remarks obviously meant that America and England would stand together in a friendship based upon community of aims, sentiments and interests."

"It needs a strangely perverted ingenuity to see a slight to America in a view of this kind emanating from the statesman who directed English policy throughout the Hispano-American war and the Anglo-American rapprochement it produced. German critics evidently dislike the prospect Lord Salisbury suggested."

The Daily Mail, which deplores Emperor William's visit to Spain as "most ill-advised and inopportune," says:

"The Standard, in its editorial, absolves Lord Salisbury of any intention to send a note of warning in alluding to America's entry into Old World politics, and welcomes the co-operation of the United States with England in 'preventing vast domains of China, should they become desert, from becoming the preserve of any single European state.'"

The Daily News says: "Lord Salisbury's remarks were unusually obscure. Perhaps he was alluding to Germany's irritation in any case Germany cannot contemplate the supreme folly of fighting to exclude America from the Pacific. He wants to display colonial energy in that direction, Germany is too late."

"An article of our national policy is a close friendship with the United States, and it would be better for Germany to act in harmony with Great Britain than to try to irritate America."

## The Mystery is Easily Solved.

When some women see their friends on the streets well and stylishly dressed, it quickly sets them thinking how Mrs. Jones, Mrs. Green & Mrs. Brown can appear so often with new dresses or costumes, while they, with quite as large an income, are so plain and commonplace.

The seeming mystery is easily solved. Mrs. Jones, Mrs. Green and Mrs. Brown know how to make the best of life. They dress better than the majority of women in their class of society and save money besides, because they use the Diamond Dyes from year to year. When their dresses become faded or unattractively looking for a few days, they simply re-dress them with Diamond Dyes at an expense of from ten to twenty cents.

This kind of neat and stylish dressing is to be commended; it is true economy, and it would not be surprising if their friends, who are in charge of dress, were to get at the cause of it. Women with small incomes can, if they use Diamond Dyes, dress well at all times at small cost. Diamond Dyes are blessings to thrifty folk.

## THE WEST YORK PETITION.

No Decision Given Yet in Respect of the Orr Charges.

Mr. W. A. Hill Testifies That Orr Had Never Received a Conveyancing Book. The Respondent on the Stand—He Was Very Emphatic Concerning Official Witnesses—William Gillman Started While in the Witness Box.

Toronto, Nov. 12.—No new decision in the West York case was given yesterday, but the interest taken in it is still at fever heat. The hope of concluding it this week was definitely abandoned after the afternoon, and arrangements were made for its resumption on Dec. 19, the earliest date possible, owing to the engagements of Mr. Justice Falconbridge. In the morning the Orr charges were resumed, but the heavy snowstorm that layed the arrival of witnesses, and it was after 11 o'clock when the first of them, Mr. W. A. Hill, stepped into the box. His evidence went chiefly to show that Orr had never received a conveyancing book or any conveyancing to amount to anything.

He Took a Drive. The respondent, Mr. W. J. Hill, was then recalled and questioned by Mr. Nesbitt about the drive he took with Orr to Peel County and whether he had not conveyed a conveyancing book to him. Mr. Hill's simple reply was that if anybody said he did he was lying. He also denied all knowledge of election officials.

Mr. Irwin was also again in the box on the question of election officials, and his evidence went to show that as he had gained some 120 votes by the revision of the lists, they had been particularly careful to avoid any doubtful work, and would tend to contradict this advantage.

Got No Promise. Mr. Rutledge went that Maxwell had told him last Saturday that Orr had never promised him anything for his vote, and that Mrs. Maxwell, also present, had corroborated what her husband said.

Joseph Rush was the final witness of the morning, but his evidence simply went to show that Orr was an active worker in the Reform interest.

Mr. Nesbitt then reviewed the Orr charges at length, claiming that the two of the three must be considered proved.

The court rose for luncheon in the midst of his remarks, and when they resumed in the afternoon Mr. Nesbitt concluded with a general summary of the case, and then called on Mr. Irwin to make a statement of the case.

Mr. Irwin was then called on to make a statement of the case, and then called on Mr. Irwin to make a statement of the case.

SOUTH PERTH PROTEST.

The Case Against Mr. Moscrop, M.P.P., Opened at Stratford.

Stratford, Ont., Nov. 12.—The South Perth election protest case opened yesterday afternoon before Chancellor Boyd and Mr. Justice Meredith. The petitioner is represented by E. B. Bickell, of Toronto and F. H. Thompson of Mitchell, and the respondent by A. B. Aylesworth, Q.C., of Toronto and E. W. Harding, of St. Mary's. Several charges were gone into, and while corrupt practices were shown, the judges agreed that agency had not been proven. The vote of Mr. Cameron, Miller, who was Mr. Moscrop's financial agent for the election, was disallowed, as he had put in his account an item of \$20 for advertising of committee rooms, which amount, however, he had not been paid. The case is still in progress.

## HINTS FOR... Clothing Buyers.

Why is it that so many careful dressers wend their way to this store for READY-TO-WEAR CLOTHING? Why is it that they continue to come and come in increasing numbers, not only for Clothing, but after Clothing needs of every description? There must be good reasons for it, and if these reasons are not evident to you we would advise you to make investigation just for your own satisfaction and subsequent profit. To help you in making an intelligent comparison or investigation we throw out these hints: Where, outside of this store, will you find Clothing to equal ours for the money—style, fit, workmanship, finish and fabric considered? Where will you find another stock so entirely free from unworthy and undesirable goods and still satisfy every demand for all classes? Are you always sure of your money back if goods are not satisfactory? That's our way of doing the Clothing business, and if it appeals to your judgment we invite you to come and see the goods we offer.

## THE CRISIS IN NEWFOUNDLAND.

It is not often at this period of our history that a Governor of a British colony, particularly of a self-governing colony, takes upon himself the serious responsibility of demanding the resignation of anyone of his constitutional advisers. Serious indeed should the offence be before so important a step should be taken by one who represents the Crown.

It would be premature to condemn or approve the action of Sir Herbert Murray, Governor of Newfoundland, for demanding the resignation of his Finance Minister, Mr. Morine, until the full facts are before us.

Telegraphic reports state that the reason given for the action of the Governor is that Mr. Morine, Minister of Finance for Newfoundland, is the financial counsel of Mr. Reid, the railway contractor, who, it will be remembered, built a railway across the colony from east to west, and who in payment for said work, has secured the greater part of the island, including its timber and minerals as well as its arable lands. If this be the reason for the action of the Governor, then no one should hesitate in his approval of His Excellency's action. No man can serve two masters. In this case it was a question for the Governor and Legislature to decide, whether a man who was the paid counsel of a contractor, having large transactions with the Government, amounting to millions of dollars, should hold any position in the Cabinet, particularly that of the important portfolio of Finance Minister in the Government having such business with a contractor as Mr. Morine.

When will either of the papers published in Belleville be in a position to incur such an expense? Certainly not, replies the Printer's D-I at our elbow, until after the Rolling Mills and Carpet Factory have been in operation for some time.

### HIS 25th ANNIVERSARY.

Presentation to Rev. M. W. Maclean by the Ladies of St. Andrew's Church.

A very pleasing event took place at St. Andrew's Church on Saturday evening. The Rev. M. W. Maclean completed twenty-five years of a pastorate in St. Andrew's Church on Saturday, and the ladies of the congregation, to mark this very interesting occasion, presented him

with a handsome fur coat. Mrs. Casey presented the coat, and made a short, but apt, speech, assuring Mr. Maclean of their continued devotion to him as their minister, and of their earnest prayers that he would be long spared to St. Andrew's Church. At the morning service yesterday, Mr. Maclean made a feeling allusion to his pastorate and to the harmony which existed between himself and his people during these years, and of his thankful gratitude to his flock for their sympathy so often expressed, and especially so when affliction and trial were present, as well as when all was bright and prosperous.

### DR. POTTS HOME.

He declined to say anything except that he was here on business, but he seemed well pleased with the success of his trip. Dr. Potts went to Stirling this afternoon, where he will visit his mother.

### KOOTENAY CURE WILL SAVE YOU

This Time "La Grippe" Intensified the Disease—Ask the Lady Herself What Kootenay Did for Her.

Ottawa, August 7th, 1895.

S. S. Ryckman, M.P.

Dear Sir,—I cannot find words to express to you my gratitude for the service you Kootenay Cure has done me. I had been treated by the best physicians in Ottawa for Rheumatism, but they told me that my case was so complicated, my trouble having originated from La Grippe, that any relief that could be given would only be temporary. Just at this time I heard of your remedy, and you were kind enough to call on me. I had very little hope of relief at first, the Rheumatism having settled in my muscles and almost destroyed my nerves. However, I determined to try once more and began to take your medicine, and in my case, physically speaking, old things have passed away and all things have become new. I can go anywhere unaided. My nerves are as strong as ever they were in my life and no change in the atmosphere has any effect on me now. I cannot thank you enough, but write this so that some other sufferer may read it and seek relief. You can refer any person to me at my residence, 199 Albert Street, Ottawa, and I shall be only too happy to give any information in my power.

Yours gratefully,

Mrs. THOMAS A. DINE, 199 Albert St., Ottawa.

### Public Meeting.

Mayor Johnson desires to inform the ladies that there will be special seats reserved for them at the public meeting this evening.

### J. R. Orr As a Soldier.

THE INTELLIGENCER extends congratulations to Bro. J. R. Orr, of Madoc, on his recent success as a military student. He has just completed a course of instruction with the Royal Regiment of Canadian Infantry, and also with the Royal Canadian Dragoons, at Stanley Barracks, Toronto. In the infantry he was successful in taking a first-class, grade A special certificate, with the fairly high average of 70.11 marks. In the dragoons he secured a first-class certificate with 78 average. These certificates qualify for any field officer's position or command of a battalion.

### Hockey Meeting.

The Belleville Hockey Club will hold a meeting at the Hotel Quatre tonight at 7:30 for election of officers and to make general arrangements for the coming season.

### OFF FOR SANTIAGO.

We are informed that Mr. and Mrs. Dolly Morris (nee Miss Dolly Morris) take ship on Wednesday, 16th inst., at New York, for their field of labor at Santiago de Cuba. They have been detained some time in preparation for their journey, which is fortunate, as the U.S. Government has granted them a free passage for themselves and their effects.

The ship will touch at their own home, Port Antonio, Jamaica, giving them an opportunity of seeing their friends, as it was the former home of both, and Mrs. Campbell can at least visit the grave of her mother, who died while she was in Belleville. Friends have been exceedingly kind to them, loading them with presents, one gentleman giving the doctor \$150 worth of medicines for his dispensary at Santiago. He has a commission to establish missionary stations on the island, wherever there is the probability of success. They have been very busy in preparation, and attending public meetings addressed by the Doctor and others. They had an immense gathering at Washington, the doctor's eloquence and Mrs. Dolly's took well with the people. They went under the auspices of the Baptist African Missionary Association, and as they are the first Protestant missionaries in action there, though beautiful, at least that part of it, we are sure Mrs. Campbell's many friends in Belleville and the surrounding country will wish them Godspeed.

### As If By Magic.

This is always the case when Nerviline is applied to a kind of pain. It is sure to disappear as if by magic. Stronger, more powerful in action than any other remedy in the world, pain cannot stay where it is used. It is just the thing to have in the house to meet a sudden attack of illness.

### NON-JURY COURT.

Sittings Opened To-day Before Chief Justice Meredith.

MONDAY, NOV. 14.

The sittings of the non-jury court opened at 1:30 today before Chief Justice Meredith, Chief Justice.

In addition to the local members of the bar the following barristers are in attendance: Mr. J. E. Halliwell, Stirling; T. A. O'Rourke and A. A. Abbott, Trenton.

The first two cases, Crocker vs. City of Belleville, Crocker vs. City of Belleville, were taken up together. Action taken by husband on behalf of himself and wife to recover \$7500 for damages sustained by falling into a drain, running under Station st., on night of May 16th.

The case was in progress when The Intelligencer went to press. R. G. Clute, C.C., and M. Wright for plaintiff; S. Masson and Geo. Denmark for defendant.

### What Does It Mean?

It means rich blood, strong nerves and sound digestion. It means prosperity and growth to the young. It means good color and mental vigor. That's what Scott's Emulsion means.

### Church Chimes.

Services at the Tabernacle yesterday morning will not soon be forgotten. A most excellent report of the S.S. Convention held at Peterboro, was given by Misses Lazier and Lloyd in a most profitable and interesting manner before a large congregation that was both pleased and profited. At the evening service the choir sang text Job 9:2—"How should man be just with God?" from which he preached a very impressive sermon.

### ROMANTIC DOUBLE MARRIAGE.

The Gleaner correspondent of the Brockville Times says: "A little piece of romance appears in the announcement of the marriage of Mrs. Ruth Brown, of Belleville, to a Guelph barrister, and Mrs. Eva (Pacheco) Brown to an Italian Count. The ladies are mother and daughter, and at one time resided here. The latter was a name for herself as a concert singer on the stage in New York City."

### More Evidence for the Crown.

The Toronto Star of to-day says: Detective William Greer returned to-day from further investigating the Napanee bank robbery case. Mr. Greer says the case against the prisoners is much stronger than before.

### Magistrate Flint's Court.

Knowledge Sandford charged Edward Kaiting with appropriating a pair of boxing gloves. Kaiting was ordered to pay the costs and deliver up the gloves.

A man residing on Mill st. was given a six months' suspended sentence for beating his wife.

### Bicycle Stolen.

A party about 35 years of age, dark complexion, dressed in black suit and "cord," is suspected of stealing a lady's "Strom" bicycle, No. 12,269, from Trenton.

### Masonic Item.

### LAI'D TO REST.

Large Attendance at the Funeral of Mr. A. C. Miller.

Considering the state of the roads after the late storms, the turnout of the people of Prince Edward and Hastings to pay a tribute of respect to the late ARCHIBALD CAMPBELL MILLER, of Picton, whose remains were laid to rest in the cemetery in Picton, on Saturday, the 12th inst., was large and imposing, evincing the esteem and respect in which the departed was held by those who knew him best.

Deputations were present from Belleville and Trenton. Those from Belleville were: Messrs. Henry Corby, M.P., N. B. Falkner, Hugh Walker, Thos. Duncan, B. Falkner, Charles Taylor, Wm. Hamilton, W. B. Northrup, Byron Burt, James Starling, Wm. Carnew, John Lake, W. Morden, Dr. Clinton, Robt. Gibson and Sir Mackenzie Borell.

From Trenton, M. B. Morrison, M.P., Mayor, and Messrs. Robt. Waddell, Dr. Jacques, R. D. Cummings, W. Matthews and T. H. Blesieker.

In the death of Mr. Miller, the town of Picton and the County of Prince Edward have lost one of the most respected and enterprising of its citizens. His death is regretted and mourned by thousands. The sympathy of all are extended to the bereaved widow and family.

### A Lady—A Boy—And a Sleigh

One day last week an estimable lady, who resides on Bridge st. west, was going down Murney's hill. When near the bottom a boy on a bob sleigh came rushing down the hill behind her, with rapidly increasing momentum, and without a word of warning ran into the lady striking her about mid-way between her knees and ankles. Of course the lady very naturally sat down on the boy with "a dull thud." The lady is not a light weight, weighing about 150 pounds. A bystander, seeing the occurrence, exclaimed with Mrs. Hemans: "The boy! oh, where was he?"

### A Splendid Overcoat Day.

### Deseronto Hotelman Dead.

George Stewart, who until a week ago was proprietor of the Stewart House, Deseronto, died yesterday morning, aged about 45 years. The cause of his death was heart disease, which also carried off two of his brothers about a year ago. He was born in 17th inst. and was a shoemaker before going into the hotel business. Mr. Stewart leaves a wife but no children; he had a number of relatives in this city. The funeral takes place to-morrow afternoon at two o'clock to the English Church burying ground.

The oil of the cod obtained from the fish caught around Norway is no better than the oil obtained from the cod caught around Newfoundland, but the process of extracting the oil in Norway is much ahead of the Newfoundland process. For this reason we use the Norway oil in the preparation of our Emulsion. Most of the other Emulsions on the market are made from the Newfoundland oil. ## Full Details of the Murray Hill Disaster.

### The Official Report—Three Belleville Men Dead—One Unknown Lady Dies on Way to Hospital—A Sickening Tale of Destruction and Death.

10:30 a.m.—At 3:45 this morning word was received here of a terrible holocaust which had taken place a few minutes earlier at Murray Hill, between Trenton and Brighton. The express going west, which leaves here at 3:15, known as No. 5 train, crashed into freight train No. 96. The road is single tracked from Sidney to Murray Hill and there the double track begins again. The express, instead of taking the south track, took the main line and crashed into the freight which was standing waiting for the express to pass before mounting the grade. The passenger express consisted of engine 773 and seven coaches, the freight engine was 712. The express was in charge of Conductor Purdon, of Toronto. It is supposed the cause of the accident was a wrongly turned switch.

The officials here admit eight killed, including three Belleville men, Driver William Brady and Fireman John McDonald of the express and Driver John Casey, who was a passenger on the express on his way to Bowmanville to take out a previous train, which had met with an accident there.

On receipt of the news a wrecking train was immediately sent from Belleville and returned with five injured who were taken to the Hospital. One is said to have died on his way to that institution.

Wm. Brady, the unfortunate engineer of the ill-fated train, was about 35 years of age and was a trusted employee of the G. T. R. He has been engaged in the railroad business since boyhood and was always considered to be a careful and shrewd engineer. He resided with his family on the eastern outskirts of the city near the R. C. cemetery. He was married about 15 years ago to Miss McCarthy, of Montreal, who with two children are called upon to mourn the tragic death of a faithful loving husband and father.

John McDonald, the companion engineer of Wm. Brady, was a well-known and popular G. T. R. employee. He was about 30 years of age and has spent a number of years on the railroad. He was a son of John McDonald, an aged and respected resident of this city, residing near the station. The unfortunate man resided with his family on Caniford road. He was married to a daughter of Mr. Michael Kelly, a few years ago, and leaves in addition to his widow a family of three children. This is the second affliction which the family of Mr. McDonald, ex., have been called upon to bear within two years. A son, Thomas, also a G. T. R. employee, it will be remembered, was killed by a runaway a short distance east of the G. T. R. station.

John Casey, the relieving engineer, on his way to Bowmanville, is a son of Stephen Casey, who resides in the 2nd concession of the township of Thurlow. He was born in Thurlow 35 years ago and the last 20 years of his life has been spent in the employ of the G. T. R., the greater portion of the time as engineer. He was married some three years ago to a Miss Marshall, of the town of Trenton. He leaves in addition to his widow, a family of two children.

Immediately upon the arrival of the injured at the station here, they were conveyed with all haste to the hospital. Here preparations had been made to receive and care for them. The efficient staff were in waiting, while the physicians had been apprised of the accident and made all possible haste to the institution. Nine of those most seriously injured were at the hospital at the hour of noon, when a representative of this journal visited it, from the courteous and obliging Matron, the particulars as to the names, residence and injuries of the unfortunate were obtained.

**THE DEAD.**  
At the hospital there was but one corpse, that of a woman, whose identity has as yet to be ascertained. Deceased is apparently about forty years of age and appears to be of French descent, but her name or residence could not be ascertained. She was terribly injured and died just as the hospital was reached.

**THE INJURED.**  
Although some of the victims received severe and numerous wounds, it is not anticipated that fatal results will follow in any case.  
Wm. Kinnear, of Tunnel, Ont., is suffering from scalp wounds and cuts upon the face.  
John Newman, brakeman of Toronto, received a number of cuts about the face and head, and also bruises about the body.

**Official Report.**  
(Special to the INTELLIGENCER.)  
MONTREAL, QUE., Nov. 15.—The following is the official report of the railway accident near Murray Hill this morning:

At 4:45 this morning train No. 5, engine 773, Engineer Brady, Conductor Purdon, in passing from the single to the double track at Murray Hill, took the east bound track in the face of switch and signals set against it and proceeded until it collided with No. 96, engine 712, Engineer Ireland, Conductor Davis, one and a half miles west of Murray Hill, badly wrecking the two engines.

Engineer Brady and his companion were killed, together with Engineer Casey, who was a passenger on No. 5 and three other passengers on No. 5, and fourteen passengers were injured. Doctors Dr. J. A. Hutchinson, chief medical officer of Belleville, where they were placed in the hospital.

**Notes.**  
The second wrecking train which left here at seven this morning has not yet returned.  
No effort should be made to fix the blame on any party or parties until an investigation is held.

A morbidly excited crowd was gathered about the G. T. R. station, the greater portion of the day, awaiting the arrival of the bodies of those whose homes are in this city.

A report was current upon the street this morning that Mr. W. R. Carmichael, of Toronto, a former druggist of this city was a passenger upon the train and had been killed. This fortunately proved to be untrue. He had intended to be a passenger upon the train, but, for some reason, delayed his going westward until a later train.

The mail clerks, Messrs. Sloan, of Toronto, and Luck, of Montreal, passed down on the 10:42 express, unharmed. Mail Clerk Brady, of Toronto, was slightly injured. So far as could be learned, the baggage and mail cars were telescoped into the second-class coach, and in the latter the greatest loss of life occurred. Doctors Gibson, McColl, Clinton, Sloan and Luck, of this city, went to the scene and returned with the injured.

John Casey, engineer, who met his death, and his fireman, Alex P. Walker, who was injured, were passengers upon the ill-fated train. They were en route to Bowmanville to take the place of an engineer and fireman who were injured there last evening through a collision of the particular coaches which appear in another column. They were despatched there for the purpose of taking the engine of the wrecked train to Toronto. No. 7 train which left here at 6:30 last evening was the one in question.

Mayor Johnson visited the hospital and with his usual foresight tendered his services. From him we learned the following particulars in reference to the unfortunate woman who died before reaching the hospital: Her features were of the French type, she was about 5 ft. 3 in. in height, between 30 and 35 years of age, brown hair and possessed of a good set of teeth. She was apparently a married woman, who was wearing upon her person a number of pieces of jewelry. The remains were prepared for burial, and in the meantime every effort will be made to find out who she is and where she belongs.

## NOW LET US WORK TO GET OUT THE VOTE.

## The Public Meeting Heartily Endorses Both By-Laws.

## Practically No Opposition—Former Opponents Converted—Both By-Laws Will be Carried by Sweeping Majorities.

The public meeting which was held in the City Hall last evening was not quite so well attended as had been expected, but the enthusiasm displayed and the notable lack of opposition to either the Rolling Mills or the Carport Factory projects showed that the passage of both By-Laws by sweeping majorities is a foregone conclusion. On the platform with Mayor Johnson were: Aldermen Harris, Denmark, Bogart, Pettit, Sarrling, Hungerford, Falkner, Lemmon, G. L. Chisholm, Wallace, Ashley, Pantor, ex-Mayor Mitchell, ex-Ald. Taylor, Col. W. N. Fenton, Messrs. Henry Pringle, John G. Frost, W. P. Hudson, ex-Ald. Robinson.

The Mayor in his opening remarks referred to the rather small attendance as an evidence that the people were already so satisfied with the projects that they had made up their minds to vote for both By-Laws and did not require any further instruction.

Ald. Bogart, who was the first speaker, said he was present principally to show his interest in the two By-Laws, which interest he would practically express on Nov. 22nd, by both voting and working for them. As Chairman of the Executive he had had a good deal to do with the framing of both, and he could assure the ratepayers that the By-Laws were well framed, and would make them acceptable to the citizens. There were never two proposals offered to a corporation which were so much in favor of that corporation; every line of both was in favor of the city. As regards the Rolling Mills project we get not only the Thames Iron Works, of Norwich, Conn., with Mr. Mitchell and his experience, ability and energy, and the American Capital, but also the Alhambra, of Montreal, for whom Kingston offered \$60,000 alone. We would thus get not only rolling mills, but works for the manufacture of nails, spikes, sheet iron, horsehoes and probably a smelter. He believed, if the By-Laws carried, before long we would have a very prosperous city. As regards the Carport Factory project, a number of our most prosperous business men had formed a company, together with Mr. Drucker, the owner of the buildings in Eastern Toronto, and they had secured a large amount of capital. These local men had faith enough in the enterprise to back it with their money and to subscribe \$60,000 stock before they asked the city for a cent. At present we could not legally give them a cent, but we were to assist them in an attempt to secure legislation for the extension of the Legislature, if the works were not made public, but for ten years if they were erected and running. If they never got the legislation the city wouldn't have to pay a cent. The additional tax to provide for the bonus to the rolling mills, together with interest, would be 1-10 mills on the dollar; for the Carport Factory, 7-10 mills on the dollar, so that the extra taxation would be \$1.80 per year for every \$1,000 of assessment. The Carport Company were presented with a building at a price of \$10,000, but if they did purchase a vacant building, they would have to pay taxes on it, the assessment being the amount paid on such building. He believed the 22nd of November would be a day long to be remembered in the history of Belleville—the dawning of a new era of prosperity for our city. So far as his knowledge went, the skating rink was the only new building put up in Belleville in the year. What were our masons, bricklayers and carpenters doing? They were moving away. Why are Brantford, Berlin and Galt prosperous and increasing in wealth and population? It is because of manufactures. Belleville is not even marking time—it is going backward. He intended to work all day on the 22nd, and he hoped every ratepayer present would try to get every available vote polled and he knew none of them would ever regret it. (Applause.)

Mayor Johnson then called upon any speaker who wished to oppose the By-Laws to come forward. If anyone had any reasons to advance against the projects, this was his opportunity.

Mr. John McKenna asked where the ratepayers of the rolling mills were to come from, and where the manufactured product was to be sold.

Mayor Johnson said he believed there was an ample field for the enterprises for those gentlemen and an ample market for the sale of the product. Scrapiron, he understood, was the main material required. This he thought, could easily be obtained.

Mr. McKenna was strongly opposed to the bonus. He had been to see the rolling mills at Hamilton, and had went, not to the still collapsed mills, but to the workmen, the home and sown of the industry. It was not stated here that the average wages paid were from \$7 to \$14 a week. The only justification for the bonus was simply based upon the principle of pro quo. The question with us is are the citizens getting anything in return for the bonus? We need first to sow the seed and then reap the crop. (Applause.) The only justification for the bonus was simply based upon the principle of pro quo. The question with us is are the citizens getting anything in return for the bonus? We need first to sow the seed and then reap the crop. (Applause.)

\$200,000 expended in buildings, we would not have \$20 and the laboring men would have to move out. Belleville, he believed, in spite of all, was prospering in some ways, but when we come to place these homes of ours, which are as important as the rolling mills, we cannot get their value for them. The efforts we are making have already been shown to the credit of Belleville, and Belleville is coming up at that account in the opinion of the people of Canada. If the By-Laws were passed he wouldn't take within several thousand dollars for the home he lived in of what he could now get for it. He believed that there was no market for iron. P. B. Bony & Co., of Montreal, were burnt out this summer. They were well insured, but they were not making money had a good chance to go out of the business. But, the contrary, he had seen the rolling mills in the debris, making preparations to rebuild. When Mr. Mitchell first proposed to come, he would have had to fight the By-Laws, but his combination with the Alhambra, he had secured the good-will, and made a business with a good reputation. This City of the By-Laws for her beauty, would be the centre of the iron trade of this country. (Applause.) It had been a dream for 35 years to establish smelting works here; we had iron at our doors and they had refused to build the railways, but they had not brought the smelter, because we never had the capital. He would pin his faith to the By-Laws, because he would think that the family had laid out for 35 years. With almost all the industries of that flourishing town Mitchell was engaged, and he had secured the good-will, and made a business with a good reputation. This City of the By-Laws for her beauty, would be the centre of the iron trade of this country. (Applause.)

The question with us is are the citizens getting anything in return for the bonus? We need first to sow the seed and then reap the crop. (Applause.)

Mr. McKenna was strongly opposed to the bonus. He had been to see the rolling mills at Hamilton, and had went, not to the still collapsed mills, but to the workmen, the home and sown of the industry. It was not stated here that the average wages paid were from \$7 to \$14 a week. The only justification for the bonus was simply based upon the principle of pro quo. The question with us is are the citizens getting anything in return for the bonus? We need first to sow the seed and then reap the crop. (Applause.)

B. E. C. Hardy, who was acting as chairman, and, after expressing his appreciation at the presence of so many ladies and the honor the committee had done him, proposed the toast of "The Queen," which was drunk with ringing cheers.

After letters and telegrams of regret at inability to attend had been read from many distinguished Canadians, including the Premier, Sir Wilfrid Laurier, at Washington, the Dominion and Provincial vice-regal toasts were honored.

Mr. Gierke sang a song, then the chairman proposed, in kindly terms, the health of

Then long and loud shall be our song,  
We'll sing of him who's here to-day,  
Shall quake and fear as thus we cheer—  
Hip, Hip Hurrah!

The hero of our story.

In reply the Premier said he could not under the peculiar circumstances give vent to his feelings of gratitude and satisfaction. He took the gathering as a manifestation of confidence by the leaders of the province, and he was deeply honored.

He accepted the honor paid to his position as Premier of Ontario. He then passed on to review the states and conditions of the province, and he was deeply honored.

Alleged Twelfth Victim—The In-  
quest.

Brighton, Nov. 17.—The smash-up  
having happened and the debris—human  
iron, glass and wood—being collected and  
taken care of, a coroner's jury is hard  
at work fixing the responsibility.  
The proceedings proper began yester-  
day afternoon at 2 o'clock, when a G. T.  
R. special with the investigators aboard  
ran from Brighton to the Murray Hill  
scene. In the coach were Coroner Dr.  
Stanford of Brighton, Crown Attorney J.  
Kerr of Colborne, G. T. R. collectors Jell  
and Pope, Lawyer J. Gordon, represent-  
ing Switnam Murphy of Murray Hill,  
District Judge Hartwell and the members  
of the press.

The sickening mass.  
The train quickly made to the sickening  
mass of ruins. It was still made up of  
shattered "meigs" cars, keel up-  
ward, broken wheels and the car full of  
red and yellow rays, which acted as a  
buffer and saved the lives of the railway  
hanses in the crowd. Out of the wreckage  
smoking mass were removed the human  
remains terribly mangled.

A little further east the further east  
stood out the red-roofed shanty.  
A long freight train here approached  
from the east and the jury stopped to  
watch its wheels as they rolled over the  
cross line.

The white signal and disk were dis-  
played, and, like clockwork, the train  
took the southerly course. Had the red  
light flashed out that a would have  
run onto the northern track, the passage  
of Tuesday's ghastly tragedy.

Switnam Murphy.  
Standing there looking anxiously on,  
with his hands in his pockets, was  
Switnam Murphy, the occupant of the  
little red shanty on the east.

He is a short, dark, gentlemanly  
looking chap of about 35, and has a  
small black mustache. When approached  
Murphy said: "I don't need to speak.  
Whatever the jury says in this case goes."

The 24 jurymen had their feelings too  
much aroused to keep their heads and  
expressed themselves freely. They declared  
the mechanism of the switch perfect and in-  
dicated that there were three distinct  
causes for the train to take into consideration:

1. Why was the red light shown?  
2. Why did the train stop?  
3. Why, when he had passed the red  
light, did he not notice that there was  
no track on his right and pull up his train?

In Brighton Town Hall.  
The scene now shifted back to the  
Brighton Town Hall. Coroner Dr. Stan-  
ford presided at the inquest, and grouped  
around were lawyers, detectives and rail-  
way men.

The first witness called was Frederick  
Zimmerman, a Russian, who landed in  
Montreal last Sunday with the ill-fated  
Coba family and who had accom-  
panied them on the daily second-class  
car but for his money being 12 hours  
slow in arriving. He identified the dead.

A scene which has seldom been witnessed  
in this city, and which, it is to be hoped,  
may not occur again, took place this morn-  
ing, namely, a double funeral. It was the  
occasion of the obsequies of John Mc-  
Donald, fireman, and John Casey, en-  
gineer, two victims of the distressing  
accident of Tuesday morning at Murray Hill.  
Since the remains of the unfortun-  
ate men have arrived at their homes, there  
has been a constant stream of people at  
both places, some drawn thither by mere  
curiosity, whilst the great majority were  
present to show their sympathy and extend  
to the bereaved families their condolence.  
Last night both houses were filled with  
sympathizing friends, and on all sides  
could be heard expressions of regret for  
the loss which has been sustained in the  
community by the sudden and awful end  
of the lives of these two popular  
employees of the G.T.R. The funeral  
took place at 2:30, and although the  
reminders of the accident are some dis-  
tance apart, arrangements were made  
whereby the two amalgamated near the  
G.T.R. Station and proceeded as one to  
St. Michael's Church, at which they were  
both members. There was a large con-  
course of citizens present to pay the last  
tribute of respect to the dead. McDonald  
being a member of the Catholic Order of  
Foresters, that society took charge of  
the funeral arrangements, while the  
Brotherhood of Locomotive Engi-  
neers did similar duties in the case of  
his brother John Casey. Both of these  
organizations were largely represented, and  
in addition there were a large number of  
G. T. R. firemen and other employees of  
the railway. Upon arrival at the church  
it was found that a large number had  
gathered for the occasion and the sacred edifice  
was soon filled. The coffins were carried  
into the church by fellow employees of  
the deceased whilst the organ played a  
funeral dirge, making the scene one not  
soon to be forgotten by those who wit-  
nessed it. Monaghan Farrelly conducted  
the ceremony which consisted in high mass  
for the dead. The Rev. Father spoke in a  
feeling manner of the lamentable cir-  
cumstances which had brought them together,  
and the sorrow which had been so sudden-  
ly thrust upon the families represented.  
During his remarks many eyes were  
filled with tears. At the conclusion of  
the solemn services the procession re-  
formed and proceeded to the R. C. cemetery,  
where the remains were interred.

The coffins were covered with beautiful  
floral designs from the various organiza-  
tions of which the deceased were members, and  
also from sympathizing friends.

The bearers for John McDonald were  
J. Fitzgerald, J. L. F. and J. D. F., and  
F. P. Carney, all of whom are mem-  
bers of the C. O. F., and the three former  
are also members of the B. L. F.

The bearers for Fireman Casey were all  
members of the B. L. F. and were J. Daly,  
W. Gorton, W. Mair, T. Elliott, J. Brown  
and J. Chahman of Brockville.

ESCAPE IS REMARKABLE.  
When the baggage car telescoped the  
other coach, a few persons were killed,  
and one of the car untouched, fortunately  
for the four surviving passengers. One of  
those four who escaped was Brakenham  
Backus, who was in the car. He broke the  
window beside him with his fist and jumped  
out, escaping serious injury. The car  
that followed the second class car was a  
first-class coach and it had its first and  
second class compartments, although as far  
as it is possible to learn, none of the pas-  
sengers in it were killed. Mr. and Mrs. S.  
L. Backus, of the latter class, were in this  
car, having just taken the train at  
Trenton bound for Michigan. Mr. Lettuce  
is of the opinion that a man was killed  
just in front of the train. He said his wife  
was sitting at the end of the car which  
was staved in, but fortunately were un-  
hurt. Both are still suffering from the  
severe shock.

They were the only passengers who got  
on the train at Trenton, and Conductor  
Purdon had just left the second class  
coach and entered the other car and  
looked back at the wreckage. He would  
also have been in the wreckage. There were two Pull-  
man cars on at the rear end, which were  
not injured. In all, there were nearly two  
hundred passengers on board the train.

A MAIL CLERK'S STORY.  
Frank Tuck, of 158 Hutchinson street,  
Montreal, a mail clerk on the wrecked  
train, regrets his escape as nothing short  
of miraculous.

"The mail coach," said Mr. Tuck, "was  
next to the baggage coach, and when it  
telescoped the second-class coach the other  
coach was crushed and the mail coach  
about three feet. We were all tumbled over  
the racks in our car, but escaped with  
little injury. When we got outside the  
wreck we saw the wreckage of the mail coach  
and saw the wreck were mightily thankful  
to escape with our lives. The conductor,  
Purdon, a Toronto man, was not hurt, but  
the train was jammed and a Toronto man,  
latter and letter bags were scattered all  
over the place.

## Another Raid Upon Ontario.

The Mail and Empire of the 16th inst. says: "Mr. Tarte announces in La Presse that the Government will redouble its representation of Ontario in the House of Commons."

The Confederation Act declares the time, the manner, and the principle upon which a redistribution of the constituencies shall take place, hence it will be little less than a breach of the constitution on the part of the Government to interfere in any such way as that indicated in the above extract, yet the country must not be surprised at anything which the present Tarte administration may suggest and attempt to carry out in the interest of party and the perpetration of office.

To attempt what has been suggested would be in flagrant violation of one of the fundamental, formerly, it is doubtful if they have any principles now except the retention of office, principles of the Liberal party, that of "Representation by Population," a principle which the late Hon. George Brown fought for and secured, in the provisions of the Confederation Act.

The constituencies of Ontario are as unequal, numerically as they well can be, hence the whole system of representation would be unbalanced. That, however, would be a matter of little consequence to such men as Tarte and his colleagues, if a party advantage could be secured thereby.

During the Mackenzie regime, an attempt was made to change the boundary of one constituency in the interest of a Grit member, the late M. C. Cameron, who had a second election in view, knowing that he would, as soon as his case was tested in the election court, be unseated. The mechanical majority which followed and supported the Government of that day, fell into line and passed the Cameron Bill.

Fortunately there was a second Chamber of the Senate, which stopped the inquiry. It would be interesting to learn from the Tarte organ why this principle of constituency boundaries is to be applied to Ontario only. Are we to understand that the Quebec majority is to apply a principle to Ontario that is not made applicable to other provinces?

Why not let the franchise Act be of that character and let it apply fairly to all. Why not carry the principle further. The electors will wait, with no little degree of interest, for this new development of party tactics, and will, more or less, with a greater unanimity than at present, thank their stars there is a Senate.

As the passenger train leaving Toronto at 8:05 was nearing the Ontario street bridge, at Fort Hope, a young man, under the charge of "Jimmy" Young, jumped the train. Luckily the train had slackened its speed, or the damage might have been considerably more. The engine and tender were completely thrown off the track, the baggage car being left on the brink of the rail.

Great credit is due to Engineer Young for the prompt manner in which he brought his engine to a stop, not fifty feet from the back of the crowd.

It is difficult to say how the accident occurred. No blame can be attached to any

## Daily Intelligence.

HON. G. W. ROSS ON PURITY OF ELECTIONS AND PREFERENCE.

THE HON. GEORGE WASHINGTON ROSS, Minister of Education for Ontario, has, in conjunction with Mr. James Connors, M.P.P., the latest postal address to the Liberal ranks, has addressed the North Toronto Liberal Club. Among other things he said:

"I believe and Conservatives should be to 'educate the masses along the lines of political purity.'"

"No sentiment! How regrettable it is that he does not practice what he preaches. He did, West Middlesex would now be represented by some one other than the Hon. George Washington Ross."

Mr. Ross then launched his political attack into a discussion of what he termed "higher politics," and the report says:

"Touching on the question of preferential trade with Great Britain, he expressed an opinion that the Mother Country would soon see her way clear to give Canadian goods and products the preference."

"Was this intended for a left-hand slap at his leader, Sir Wilfrid? If not, it would be well for this humble follower of the Dominion Premier to explain the reasons which have led him to the conclusion that 'the Mother Country would soon see her way clear to give Canadian goods and products the preference.'"

"The contention which he admires as a politician, and follows with a slavish fidelity, told the people of England that Canada did not want, would not ask for, nor accept preferential treatment for the products of the Dominion in the English market, for the reason that it would be a step in the direction of protection."

Mr. Ross is either forgetting his party fidelity, or in a moment of weakness, gave vent to his feelings, and did not know the expense of his leader. Or what is equally probable, was giving his Dominion idol a stab under the fifth rib in the hope of soon superseding him, knowing, as he does, the feeling of the country to be in favor of securing a preference in the English market for the surplus products of Canada; a principle which Sir Wilfrid declared himself in favor of when canvassing the elections of 1896, and which he repudiated as soon as his head became turned by the glamour by which he was surrounded while in England. He there forgot Canadian interests and fell down and worshipped at the feet of the Cobdenites, for which he secured a Gold Free Trade Medal at the expense of Canada. How under these circumstances does the Honorable GEORGE WASHINGTON ROSS expect to secure so great a boon to Canada, until Sir Wilfrid is removed from a position which he attained through fraud and misrepresentation, is for him to explain.

Will he assist in detroning Sir Wilfrid? If honest in his utterances upon this question of preference for Canadian products in the English market he should; but he will not.

**As If By Magic.**

This is always the case when Nerville is applied to any kind of pain; it is sure to appear as if by magic. Stronger, more energetic and quicker than any other remedy in the world, pain cannot stay when Nerville is used. It is just the thing to have in the house to meet a sudden attack of illness.

**Halls of Silence.**

A fine wedding hall, plush, full bloom has occupied the officers' library during the past week. To the married folk it was simply an interesting horticultural exhibit, to the single men it was a place to go to have the same attraction as a candle to a moth. According to theory it is unsafe for the unmarried to look at the petals, and if that is true we shall soon be losing some of our lady teachers, for they have been for all these weeks in the hall.

It still wants five months to the first of April; too long to wait; so some of our sprightly young teachers get their little unsuspicious and innocent pupils to dress up in a dummy in full bloom, and stick it upon a rocker in the reception room with its back to the door. For the unmarried to look at the petals, and if that is true we shall soon be losing some of our lady teachers, for they have been for all these weeks in the hall.

He was toasting his slipper and trying to imagine it a roasting Scotch cod fish, when a message came that he wished to see him. He wondered who it could be, and he supposed thought his future mother-in-law had come over after him. Pulling down his slippers he descended to the parlour, and there several young ladies were quietly reading the papers. Coming around the corner to greet his visitor, he was met with a roar of laughter and course had to laugh too. Mr. McKillop had received a message that a widow lady friend had called and said to him, "We all know 'Mac' is something of a duffer, and he took an unconscious time to meet a bundle of dry goods, and all to the good of the cause."

**KOOTENAY CURE WILL SAVE YOU**

This Time "La Grippe" Intensified the Disease—Ask the Lady Herself What Kootenay Did for Her.

OTAWA, August 7th, 1898.

S. S. RYCKMAN, M.P.

Dear Sir,—I cannot find words to express to you my gratitude for the service your Kootenay Cure has done me. I had been treated by the best physicians in Ottawa for Rheumatism, but they told me that my case was so complicated, my trouble having originated from La Grippe, that any relief they could give would only be temporary. Just at this time I heard of your remedy, and you were kind enough to call on me. I had very little hope of relief at first, the Rheumatism having settled in my muscles and almost destroyed my nerves. However, I determined to try once more and began to take your medicine, and in my case, physically speaking, old ailments have gone away and all things have become new. I cannot thank you enough, but write this so that some other sufferer may read of my recovery. I am now at my residence, 190 Albert Street, Ottawa, and I shall be only too happy to give them any information in my power.

Yours faithfully,

MRS. THOMAS A. PIRIE,  
190 Albert St., Ottawa.

**SNAP SHOTS AT TIMELY TOPICS.**

It is just as well that Sir Wilfrid Laurier has decided not to go through the process of passing a Prohibition law. Having passed an alien labor law, he has now decided that it shall not be enforced.

The Grit Nipissing whipsy election case is so complicated, old ailments have gone away and all things have become new. I cannot thank you enough, but write this so that some other sufferer may read of my recovery. I am now at my residence, 190 Albert Street, Ottawa, and I shall be only too happy to give them any information in my power.

A long time in V for one vote! Twenty fables in a grip for half a dozen Count, brothers, count; count with care.

The Times publishes a letter from the secretary of the Copyright Association on the 16th Nov., who appeals to the Anglo-American Commissioner at Washington to endeavor to induce the United States to reject the manufacturer's claim of the Copyright Act of 1891, which he says, "would be a valuable proof of the sincerity of the good will the United States now display toward Canada."

The Secretary of the Copyright Association has evidently forgotten that the policy of the United States is "Protection to all its Industries." It would indeed be an evidence of "good will" for them to change the law in the line indicated, but they will not.

**Furs Remodelled.**

**Jesus Christ Had No Beauty or Comeliness.**

To the Editor of the INTELLIGENCER.

Sir,—The communication of that lady from Pictou (I think) in your issue of the 6th inst. concerning the person of Jesus Christ, to the single end, that she would like to see the Prophet Isaiah, delivered many years before Christ was born. He is called the Evangelical Prophet. "He had no form of comeliness, and when we shall see Him, there is no beauty that we should desire Him. Surely He hath borne our griefs and carried our sorrows, yet we did esteem Him stricken, smitten of God, and afflicted." The old manuscript which the lady speaks of (if ever existed) I pronounce unsound on the strength of the prophecy, and anyone who believed the Bible to be inspired would come to the same conclusion. Mr. Editor, read the whole chapter, and you will know the conclusion you will arrive at.

OLD JOSEPHUS.

## BRIEF ALDERMANIC SESSION.

An Important Communication  
Read by the Mayor.

Carman vs. Lingham case, re Fence on John St., Laid Over—Other Matters Attended to.

The session of the City Council last night was not an important one, and lasted but a short time. Those in attendance were: Mayor Johnson; Ald. Ashley, Bogart, Chisholm, Clark, Dunn, Doyle, Fallon, Grills, Harris, Hungerford, Laloch, Lennox, Luncheon, Taylor, Pantar, Petty, Starling and Wallace.

GRAND TRUNK RAILWAY SHOPS.  
The Mayor stated that owing to rumors which he had heard in reference to the removal of the shops from the city he had addressed the following communication to Mr. Chas. M. Hays, the Manager of the G.T.R., but up to the present had received no reply:

MAYOR'S OFFICE,  
BELLEVILLE, Ont., Nov. 11, 1898.

DEAR SIR:—I have been informed to-day that it is the intention of your company to close the east shop in the city and remove the men from Belleville. Mr. McCallister was here this forenoon. I went to the station to interview him on the matter, but he had been called suddenly to Port Clinton and I did not see him. I therefore take the liberty to write you direct. In a personal interview last year and by correspondence this year I informed you of the contract between the City and the G.T.R., by which the Company, for the sum of \$25,000 paid to the City, agreed, among other things, to keep employed here, in addition to those previously employed, 200, whose homes should be in Belleville. The shops have been in recent years gradually depleted, and now, according to the information received, they are to be shut up entirely. I respectfully submit that if, in the interests of your road, you deem it necessary to concentrate your shops, and thereby deprive this city of an advantage for which it paid a large sum of money, some equivalent should be rendered.

You know how desirous I have been to preserve the friendly relations that have existed between Belleville and the Grand Trunk Railway Company, and for your early and earnest consideration of the means to provide a full and satisfactory response to the city for the men that have been and will be removed.

I may mention, as a matter of great interest to your road, that there will shortly be established in Belleville the largest rolling mills and shops in the Dominion, and horse-shoe works in Canada. The shops of the Rolling Mills of Montreal, the Mitchell Rolling Mills of Norwich, Conn., are being transferred to Belleville, and will be located along side of your track in the city. To secure them, we are paying a bonus of \$85,000. Is it not worth your while to help a city that is so enterprising, and whose increased prosperity will be an advantage to your road?

Yours faithfully,  
J. W. Johnson, Mayor.

COMMITTEE'S REPORT.

The only committee that presented a report was the Executive, which recommended the payment of a few accounts and recommended that the solicitor advise Mrs. F. R. Lingham that the posts and iron railing on John St. south of her residence should be removed, as it was claimed to be an obstruction.

The Council went into Committee of the Whole on reports, Ald. Chisholm in the chair.

On motion of Ald. Bogart, Mr. W. B. Northrup, solicitor for Mrs. Lingham, was heard in reference to the alleged grievance. Mr. Northrup stated on behalf of Mrs. Lingham that she had been asked to appropriate any property which belonged to the city, or to injure any person. He believed the city did claim to be the owner of the street where the fence had been placed, and which did occupy a portion of the street. The title, however, for that portion of the street was intricate. As for the portion of the city was at present, there was no doubt an encroachment upon the street, but the question was, did the street properly belong to the city. He suggested that the City Solicitor look up the title and see in what position the city really was in regard to the matter. He hoped an amicable arrangement could be effected between all parties.

Mr. Williams said Mr. Northrup admitted that the fence was upon the street and the water was kept open for the public use. One half of the street has been absorbed by the fence and interferes with the value of Mr. Carman's property. He asked the City to take the fence down and recommended by the Executive Committee.

The Mayor said the Council should take the advice of the City Solicitor. The Solicitor had given his advice, but Mr. Northrup had placed a different light upon the matter. Ald. Bogart was of the opinion that the matter should be referred back to Mr. Mason, the City Solicitor, and have a matter thoroughly and satisfactorily settled. He made a motion to this effect which prevailed.

The question of an account of \$224 incurred in making excavations for Messrs. Rust and St. George for the proposed purchase of the water works by the city, caused a short discussion as to whether the city should pay the whole of the account.

Ald. Pantar thought the Water Works Company should pay one-half of it.

Ald. Bogart said if the city should purchase the water works upon the basis recommended by these gentlemen, then the water works should be kept open for the public use. This explanation proved to be satisfactory. The Committee then rose and reported, the report being received and adopted.

REQUISITE.

Ald. Wallace asked if Mr. Cole had paid rent for the elevator.

WE WANT TO

STRICTLY YOUR WANTS.

In the way of China, Glassware, Silverware, Lamps, Crockery, Tea, Coffee and all the goods and prices that sell them quickly. It's worth your while to walk in and look round—strictly your store.

The City Treasurer stated that he held a cheque from Mr. Cole for \$150 for a half year's rent.

In answer to Ald. Pantar as to what had been done in reference to Mr. Downey taking the elevator, Ald. Falkner replied that Mr. Downey had done nothing at all. (Ald. Falkner) had advertised the elevator for sale or to be leased.

Ald. Ashley asked if the city had options on all the land that the proposed rolling mills would acquire as set forth in the By-law.

The Mayor said the matter had been satisfactorily arranged.

Ald. Chisholm's notice of motion, given at last meeting of the Council, for a report from the Collector of all unpaid taxes, was allowed to stand.

Council adjourned.

## C. E. LYONS DEAD.

A Popular Barrister Dies At An Early Age.

At a few minutes after 5 o'clock last evening, death claimed as a victim a young and well-known barrister of the city, Mr. C. E. Lyons. Although the deceased had been ill for some time, his death was rather unexpected. On Thursday last he was able to get out and was driven about the city, but since that time he had been in feeble health and death resulted as above stated. Deceased was born in the village of Wellington, Prince Edward County, 30 years ago, being the eldest son of Lawrence Lyons, Esq., a well-known and highly respected resident of that place. He was educated in the common schools of his native place, and at the age of 16 years, he came to the city and was engaged in buying grain, in which capacity he proved to be successful. He had, however, inferior ambitions and did not remain long at this business. He entered Albert College and became an apt scholar, graduating with honors from that institution. He then studied law with the late S. B. Burdett, J.P., and in the year 1889 passed successfully his examination as a solicitor, and later as a barrister. He entered the bar in 1891, and was soon afterwards remaining with him until he died, when he continued to transact the business of the firm. The deceased was a man of extensive, and after Mr. Burdett's death Mr. Lyons continued to do a large share of his late partner's business. In December 27th, 1892, the deceased was united in marriage to Miss Fred Allison, daughter of Mr. A. G. Allison of this city. With one child, a little girl, she is left to mourn the early demise of the departed. In addition to the parents of the deceased, he leaves two brothers and one sister, all of whom reside in the village of Wellington. It is well known throughout this section of the country, having taken an active part for years in the political struggles which have taken place. He was in politics a staunch Liberal and had ambitions to become a member of Parliament, and no doubt had his life been spared he would have been honored with a nomination at the hands of his party. His death at an early age is to be regretted and the sympathy of all will be extended to the bereaved widow and family. Deceased was a member of LaSalle Lodge, A.M., and a member of Shannville Lodge, A.O.U.W. He will be taken to Wellington on Thursday morning for interment.

## Organ Recital.

The musical-loving people of Belleville enjoyed a rare treat Saturday afternoon at an Organ Recital given in the Tabernacle church by Prof. F. W. Owens of St. John's church, Peterborough.

All present fully appreciated his faultless rendition of the various difficult selections. Prof. Owens has studied under the best masters of his art, and his playing was perfectly evinced by the excellent manner with which he played at the organ Saturday afternoon, as well as at both the Sunday services. The large audience was crowded into the church, and the selections as given by the choir under the able direction of Prof. Owens were most favorably commented upon. Special mention should be made of the old, inspiring hymn "The Church's One Foundation," which was sung by the choir to the tune of the Professor's own composition.

We hope that this may not be his last visit to Belleville, and assure him a hearty welcome at any future date.—Com.

### Will Give Evidence Against Ponton and Mackie.

#### Defence Not Worried—Visit to Belleville—Jury Selected—Latest From Napanee.

Napanee, Ont., Nov. 22.—The bank burglary case was reached yesterday afternoon, but was not touched. This morning the selection of a jury will take place and will occupy the whole forenoon. Interest is intense.  
The sheriff has taken pains to see that the law regarding tampering with a jury is known. All over the court are posted bills that state "Everyone is guilty of an indictable offence and liable to two years imprisonment who influences or attempts to influence, by threats or bribes or other corrupt means, any juror in the course of such a trial, whether such person has been sworn as a juror or not, or accepts any such bribe or other corrupt consideration to abstain from giving evidence, or on account of his conduct as a juror."  
A Fear of Jury Fixers.  
The police have been on the qui vive since the trial began, and last night one man in particular, it is said, was shadowed away on into the morning, but nothing was revealed. The police seem to fear that some effort will be made to reach some of the jurors, and they are vigilantly personified as a result. Sheriff Hawley, asked if he anticipated any such effort, said: "I don't say whether I do or not, but if it is in contemplation, it is a sad thing for our country to have justice thus linked."  
But those who know the gentlemen on both sides of the case and the unimpeachable character of the members of the jury, laugh at the alleged fears of the guardians of the law.  
A shadow has fallen upon the interested parties in the case by the death of Lawyer Lyons of Belleville. The deceased made an important statement that may be produced in court. It will be Saturday night at the earliest before the case is handed to the jury.  
True Bills Returned.  
At 3 o'clock the grand jury, headed by the foreman, Anson B. Aylesworth, filed into the court room. The foreman handed some documents to the clerk of the court, who read as follows:  
Queen v. Henry Holden and George J. Pare, burglary, true bill.  
Queen v. William Hamilton Ponton and Robert Mackie, burglary, true bill.  
The judge then gave the jury for their expedition, and sent them to the discharge of their additional duties.  
The judge said to the jury, W. S. Harrington suggested at the instance of B. B. Oiler, Q.C., that the case against Ponton and Mackie be not brought on till 4 o'clock.  
The judge assented to, and instructed that the case be brought on at 4 o'clock.  
The court then convened again for the hearing of the case at 4 o'clock. It was getting late and His Lordship said there would be nothing further done till this morning at 10 o'clock.  
Holden Knew Pare.  
There is something new in the bank case, and it comes as a surprise to many. At the preliminary investigation three months ago, when Holden and Pare were pleaded, and it was currently reported that when he was put on the stand he would knock Pare's story to pieces. It is now said that Holden will throw himself on the mercy of the court and tell a story corroborating Pare's in all its essential details.  
Quarters for the Jury.  
Sheriff Hawley has arranged for quarters for the jury when it is empanelled. It will be lodged at the Campbell Hotel, and a watch set over it night and day.  
It has leaked out that the deliberations of the grand jury were not altogether harmonious. When it was first shut up there was a majority in favor of bringing in a true bill against Holden and Pare, but no bill against Mackie and Ponton. It was only by much argument on the part of those differing that a bare majority was obtained for true bills in both cases. This majority was afterwards in the majority jury, very unanimous. The foreman of the jury was one of the many that signed a requisition to the Government for a change of venue on the ground that twelve impartial men could not be found in this country.  
The Expert Safe Cracker.  
The expert safe cracker has arrived. He is Arthur Casella of the Montreal Herald. He will not talk to reporters, but it is said he has opened many combination locks. He says: "It is possible to close a safe so that I couldn't open it for three weeks. I have done it. It is so that it could not be opened for three months."  
There is no little speculation as to his alleged abilities, the bulk of the opinion being that "he can't do it."  
W. H. Ponton is sure free to go where he will. He will not be arrested till the court orders it, when his case is called.

## Men's Winter Suits.

The self-satisfaction of knowing yourself properly clothed is equally as pleasing as the knowledge that you save half the money the tailor would charge to make the same suit. Quick & Co. ## A Beautiful Christmas Number.

In SATURDAY NIGHT'S CHRISTMAS appear some very fine stories. The book is 50 pages enlarged from 40 to 70 pages. Edmund E. Sheppard gives an historical picture of Guatemala, the Killing of Juan Aguacil, a narrative leading up to the assassination of President Barrios last winter. This is illustrated from photographs taken at the spot, and portrays the leading characters, only one of whom is now alive—although the intricate tragedy opened at eighteen months ago. Two Weeks before the Mass, by Charles Lewis, is a very humorous, and illustrated by R. G. Matthews, of Montreal; the Colonel's Guest, by W. A. Press; Robert Met Robel, the Soldier's Son, by Charles Matthews; Christmas Fables, by W. Gurney Benham; Christmas with the Queen, by S. A. Tooley—these are all interesting and artistically illustrated. With the book are two colored plates, one showing the flag signal used in conveying to the British fleet Nelson's victory over the French at the battle of Trafalgar, and the other entitled "The Mystery of the Morn," of which Mr. J. W. L. Forster, the well known artist, says: "It is a compliment to Canadian taste."

**KOOTENAY CURE WILL SAVE YOU**  
 This Time "La Grippe" Intensified the Disease—Ask the Lady Herself What Kootenay Did for Her.  
 Ottawa, August 7th, 1898.  
 S. S. Ryckman, M.P.  
 Dear Sir,—I cannot find words to express to you my gratitude for the service your Kootenay Cure has done me. I had been treated by the best physicians in Ottawa for Rheumatism, but they told me that my case was so complicated, my trouble having originated from La Grippe, that they could give me only a temporary relief. Just at this time I heard of your remedy, and you were kind enough to call on me. I had very little hope of relief at first, but Rheumatism having settled in my muscles and almost destroyed my nerves. However, I determined to try once more, and began to take your medicine, and in my case, physically speaking, old things have passed away and all things have become new. I can go anywhere unaided. My nerves are as strong as ever they were in my life and no change in the atmosphere has any effect on me now. I cannot thank you enough for writing this so that some other sufferer may read it and seek relief. You may refer my name to me at my residence, 190 Albert Street, Ottawa, and I shall be only too happy to give them any information in my power.

 O. E. Ransom, Huntville, Ky.: "I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal; I ate one. Four boxes of the tablets have brought me back to normal. I find them pleasant to take, convenient to carry."  
 Rev. G. D. Brown, Mondovi, Wis.: "The effects of Stuart's Dyspepsia Tablets are simply marvellous; a quiet healthy dinner of broiled beefsteak causes no distress since I have begun using them."  
 Over six thousand people in the State of Michigan alone in 1894 were cured of stomach troubles by Stuart's Dyspepsia Tablets.

PONTON'S STRONG CASE

Evidence Which Proves the Falsity of Pare's Story.

Mr. Walker, Mr. and Mrs. Macaulay and Miss Davy Prove that He Did not Meet Pare on the Date Given.

(Special to the Intelligencer.)  
Napanee, Nov. 30.—It is now expected that the evidence pro and con will be concluded to-night. Mrs. Mackie's evidence placed an opportunity before the Crown which they did not fail to grasp. The alleged admission of Mrs. Mackie to the French sisters which were excluded as hearsay evidence, is now got before the jury, and the Crown can, if it wishes, drive these home by calling the two girls in rebuttal. As these alleged admissions implicate Ponton as well as Mackie, the matter becomes a very serious one for both prisoners.

Ponton and Mackie are evidently feeling the strain of this long trial very keenly. They look drawn and pinched, and both have large black circles under their eyes. They listen listlessly to what is going on, and occasionally Mackie leans over to give a suggestion to his counsel. Mackie's friends now claim that an alibi has been conclusively proved. Ponton's defence will rest principally upon the evidence of the safe experts, Miles and Gravelle. It is hardly probable that Ponton himself will go into the box.

Strong Evidence for Ponton.

Napanee, Nov. 30.—Alex. Walker, of Belleville, testified that Ponton was working with him in the library during the week of April 27th from the hours of three to six p.m.  
Detective Hodgins, of Toronto, arrived on the scene of the robbery on Aug. 29th, and remained till Sept. 7th. He had been in Ponton's rooms with Detectives Greer and Wilkes when they made a search, but nothing of an incriminating character was discovered. He had an interview with young Haycock and he told him that he did not know any person in Ponton's rooms on the night of the robbery.

Jas. Roblin and Geo. Meagher were leaving against the bank on the night of the 27th of August and about nine o'clock they heard clock striking inside the bank. Sheriff Hawley had a party at his home on the night Mr. Merrett died. P-n was at the party, which broke up at 3 a.m. Dr. Vrooman testified that Merrett died on Aug. 27th.

Ponton's Movements.

(Special to the Intelligencer.)  
NAPANEE, Ont., Nov. 30.—This morning Wm. Coates and Roland Hawley gave evidence as to Ponton's movements on the night of the robbery up to the hour of 11:30. Chas. Bartlett, grain merchant, told of the loss of one hundred and fifty Canadian cents done up in three paper in his office and procured them from the bank about a month prior to the robbery. Dr. Warner, whose office is in the Grange Block, had seen, prior to the robbery, cigar stubs, etc., in the hall way, when going to his office in the morning.

Wm. Templeton gave evidence contradicting Pare's story that a man could stand on Centre St. and see a man looking into the back window of the bank.

Mr. and Mrs. Macaulay.  
NAPANEE, Ont., Nov. 30.—W. H. Dar and testified to his duties at the Bank and that he always went to it that the safe was locked on the occasion prior to the robbery. He was absent. He had never told Senkler and Wilson, of Vancouver, that he had received a letter from a lady asking for an appointment, but had no recollection of ever receiving such a letter.

C. D. Macaulay, of Belleville, was with Ponton at the home of Mrs. Davy from 8 to 11 o'clock p.m. on April 24, 1898.  
Mrs. C. D. Macaulay confirmed her husband's story as to the 24th of April.  
Miss Lulu Davy gave testimony of a similar nature to that of the previous witnesses.

More Strong Evidence.

NAPANEE, Nov. 30, 3 p.m.—After adjournment, Miss Fannie Newberry and Miss Jessie MacLean, of Belleville, told of being at Mrs. Davy's house on April 24, '98, and that Ponton was there up to 11 p.m.  
Jas. Starling, of Belleville, was the next witness. He thought Billy Ponton a model youth. He said he was in Goderich on April 24, '98, on yacht Skylark. He had often met Ponton at Mrs. Davy's on Sunday evenings.

Geo. Hawwell, uncle of prisoner Ponton, testified that Ponton lived with him. He remembered the night of the 24th of April. Ponton got in between the hours of 11 and 11:30. He was certain of this because in a conversation with his wife he mentioned a remark of Billy Ponton's that the girls would not let him go till after eleven.

B. A. Lewis, of Belleville, swore that he did not sell two return tickets to Deseronto on the 25th or 26th of April, 1898.

Still More Sensible.

Commenting upon the Hamilton Spec's article on the bank robbery, the Intelligencer, the London News says:  
"With that we thoroughly agree. We do not profess to know whether Ponton is guilty or not. But we do not believe there would be either sense or justice in convicting him."

visiting a young man on the testimony of confirmed criminals. What we say will not rest on the eye of the jury, but on the verdict is rendered, and so cannot affect the result, but charitably disposed persons will feel that Ponton, as a man, is a thorough contempt for Holden and Pare. If they committed the crime, as they say they did, they should have the nerve to stand the consequences without implicating others. So far as our observation of human nature has gone, the informant is a low-down creature upon whose testimony we would not convict a dog. The man who would enter into a conspiracy to rob a bank would be himself black in the face to get out of the punishment.

Does Crime Pay?

By Pare and Holden.  
Toronto News: The surest way to make crime pay is to keep out of it.

About one-tenth of his time a criminal is miserable because he may be caught during the remaining nine-tenths of his time he is wretched because he has been caught.  
Delinquency may make a man rich, but crime almost invariably makes him poor. If a man can't overcome his taste for breaking into houses he need not expect the law to overcome his taste for putting him into a jail he can't break out of.

When it becomes safe to rob a home of her wealth or a mother of her child, then we may expect a rich corporation family to be admitted to burglary.

The man that takes to crime as a profession need rarely bother about his board bill—his country will attend to that.

BROWN COMMITTED

Strong Evidence That He Robbed the Dead Drover.

Hugh Brown, of the town of Trenton, was before Magistrate Flint this morning, charged with feloniously stealing a sum of money belonging to the late Wm. Lunness, of Toronto. Magistrate G. H. Gordon, of Trenton, was also associated with P.M. Flint. Mr. P. J. M. Anderson appeared for the Crown, and W. Carnew, of this city, and T. A. J. Burke, of Trenton, for the accused.

The prisoner on being arraigned pleaded not guilty, but made no election as to his trial.

Detective Day, of the G.T.R., was the first witness sworn. He said he knew the prisoner and also late Wm. Lunness, of Toronto, who was killed in the railway accident at Murray Hill on the morning of the 15th inst. Deceased was a butcher and cattle buyer. Witness received information that the deceased had upon his person at the time of the accident a large sum of money which could not be found. From information which witness received on the evening of the 23rd inst., in company with Chief of Police Coleman, of Trenton, and Assistant Detective Colburn, they visited the house of the prisoner and told him the object of their visit. They searched the prisoner that what he had on said might be used in evidence against him. He said he would give up what he had got and would send his wife for it. He gave his wife away Lunness's forty-one \$20 bills, one \$10 bill and one \$5c bill. The money was found on Brown when searched. David Harris, who was in the house at the time was searched and \$25 was found on him. This made \$936.25 accounted for the money which was a balance of about \$200 which Brown said he had found in a money in a pocket book among the debris.

After finding the pocket book, prisoner went away, but gave \$5 each to the five men who were in his company at the time. He subsequently gave Harris two \$20 bills, three \$5 bills and one \$10. Subsequently he gave Blundin one \$20. These monies were given in Brown's house. The bills were issued by the Bank of Toronto, and were cashed by Mr. Jas. Lunness, a brother of the deceased, informed the witness that about \$1,200 was missing. Brown stated that he had burned the pocket book and had also burned some papers which were among the bills.

Mr. W. W. Pope, of this city, testified as to the accident and the identification of the bodies and their final disposition. Among the bodies was that of Wm. Lunness, of Toronto.

Chief of Police Coleman, of Trenton, corroborated the testimony of Detective Day.

After argument by Mr. Carnew, one of the counsels for the accused, and the County Attorney, the Magistrate committed Brown for trial.

### HOW THEY LOVE EACH OTHER!

#### PATRONAGE AND PLUNDER THE CAUSE.

A telegram from Montreal of the 18th inst. informs the public that "the revolt of the old time Liberals of the city of Montreal against the Tertie section of the party at Ottawa, has passed the stage of speeches and proceeded to action. The club, Geoffroy, before which Mr. Beaudouin, M.P., made his attack upon the Administration for awarding patronage to Conservatives rather than to Liberals, has passed this resolution:

"The Club Geoffroy, in regular meeting assembled, repudiates the Minister of Public Works as being a traitor to the Liberal party, and the members of this Club bind themselves together to fight him for the greater good of the Liberal party."

The Tertie is raising the whole batch, and is running over. The "old time Liberals" know their man, hence they "repudiate" him; but he'll conquer them yet, and they will have to submit.

TARTÉ'S \$30,000 "LA PATRIE" AND LOUIS RIEL.

While the Rosses, Pattersons, Harries, and others of the Tertie party, are making speeches at public dinners and through their echos in the press, charging the Conservative party with raising racial riots, the Terties, of which these same gentlemen form a part, are at this late period of our history appealing to the prejudice of the French race, to avenge the death of the Arch Traitor and Murderer, Riel.

The anniversary of the execution of Riel at Regina for his many crimes, was a reminder to Tertie and his admirers, that a little political capital could again be secured by denouncing those in Ontario, who faced death to bring the murderer of poor Scott and others, to justice. Here are some of its utterances:

"It is appropriate to give a thought," says La Patrie, Tertie's paper, editorially on the 16th inst., "to this victim who paid with his life for the crime of vindictive justice in their name. It is sufficient to recall that Riel was executed after a judicial farce, and contrary to British traditions that a political prisoner should not be hanged. The scaffold of 1885 was erected by their tolerance and hatred of the Orangemen, and by the bad elements that dominated the Tory party of that period."

Then it adds that "so strong was this 'bad element' at Ottawa that the voice of the Province of Quebec was not heard, and, to the disgrace of Canadian civilization, Riel was executed." The Patrie next proceeds to denounce those of its own race, who would, if they could, have saved this murderer from the gallows, because, as it says, they joined forces with Clarke Wallace and the bad elements who are sold with the blood of 1885.

This is fair sample of the ravings of such men as Tertie, with whom the Liberals of Ontario are now lovingly allied, and consequently responsible for this vile and unpardonable attempt to re-enact in the scenes of the events of 1885, the face of the same old Tories, who have Ontario Grit Members of the Government charging a like crime to the Conservative party. Arafonian cheek and impudence, alone, can be used as an excuse for such conduct.

We commend those utterances to those of the Conservative party, who assisted these Terties to power.

**CANADA FOR THE CANADIANS!**

The Railroad Gazette, of New York, learns that the contract for the Intercolonial Railway with the Baldwin locomotive works of Philadelphia calls for 19 compound condensing engines, and one of the same type with Cleveland cylinders. This is the second big order for locomotives which the Government, passing over our own engine works, has sent to the United States.

In Opposition the politicians who are now in power at Ottawa were always crying up the wares of producers across the line and railing against them.

They have been true to that policy since coming into office.

For Canadian postage stamps, for Dominion notes, for Yukon stamps, for International railway tickets, even for the material of Canadian postal cards, they have gone across the border.

Canada for the Canadians? This is the Laurier cry, and this is how they try to out.
